Honorable Trustees:

I am pleased to present the Annual Comprehensive Financial Report of Thornton Township, Illinois (the Township) for the fiscal year ended February 28, 2023. The report was prepared by the Township's Director of Finance. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with Thornton Township. We believe the data presented is accurate in all material aspects; that it is presented in a manner designed to fairly set forth the financial position and the results of operations of Thornton Township as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain the maximum understanding of the Township's financial affairs have been included.

The audit is presented in three sections; introductory, financial and statistical. The introductory section includes this transmittal letter and the Township's organizational chart. The financial section includes the Independent Auditor's Report, the Management's Discussion & Analysis (MD&A), basic financial statements and schedules for the major and non-major funds. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis.

This letter of transmittal is designed to complement the MD&A which begins on page 3.

This report includes all funds of the Township. Thornton Township contains portions of 17 communities within its jurisdiction: Burnham, Calumet City, Dixmoor, Dolton, East Hazel Crest, Phoenix, South Holland, Thornton, Blue Island, Glenwood, Harvey, Hazel Crest, Homewood, Lansing, Markham, Posen and Riverdale. Specific operating departments within the Township include: Department of Administrative Services, Department of Special Services, Department of ZAP Services, Department of Youth Services, Department of Transportation, Department of Community Relations, Department of Senior Services, Cemetery Department, Clerk's Department, Assessor's Division, Department of General Assistance and Department of Facilities and Road Maintenance.

ECONOMIC CONDITION AND OUTLOOK

Thornton Township is a municipal corporation of the State of Illinois. The Township covers approximately 47.42 square miles and is located in Cook County. The Township maintains a total of seven locations in four different municipalities. The South Holland locations are as follows: Town Hall at 333 E. 162nd Street, ZAP Center #1 at 425 W. 169th Street, ZAP Center #2 at 16910 Westview Avenue and Highway Garage 15525 Wentworth Avenue. The Riverdale location is the Thornton Township Senior/Youth & Family Services Center at 14623 South Halsted. The Calumet City location is the Thornton Township Senior Center at 1420 Huntington Dr. and the Harvey location is

Thornton Township Food Assistance Center at 15340 Page Ave.

According to the 2021 American Community Survey (ACS), the population is 154,231 for the Township. The 2021 median household income is \$50,132 and per capita income is \$24,396. The potential for future population growth is modest even with a slightly improving housing market as the Township has minimal buildable land available for future development.

The Township levies taxes for three agencies. The agencies are the General Fund, General Assistance and Road and Bridge fund.

MAJOR INITIATIVES

Building on our dedication to prudent financial management, we initiated strategic investment efforts that have yielded significant returns. By investing wisely, we managed to secure an annual interest rate of over 5% on our funds, resulting in an additional \$30,000 a month in interest income. This achievement demonstrates our ability to leverage financial instruments to support our community's needs. Comparing the fiscal years 2022 and 2023, Thornton Township made notable strides in optimizing its financial resources and controlling costs. We achieved the following:

- **General Funds Administration Salary Reduction:** In fiscal year 2023, the Township successfully reduced the General Funds Administration's salary by \$330,526, marking a substantial decrease of 20%. This accomplishment showcases our commitment to fiscal responsibility and efficient resource utilization.
- **General Assistance Administration Efficiency:** The Township made diligent efforts leading to the identification of operational efficiencies within the General Assistance Administration. By streamlining processes and resource allocation, we realized significant savings of \$231,324 in salaries for fiscal year 2023, reflecting a 10% decrease. These savings reflect our dedication to continuous improvement and fiscal prudence.
- **Community Outreach and Engagements:** Thornton Township remained deeply engaged with the community in various impactful ways during the past year with the Thornton Township First Gas Give-Away and the Mental Health Youth Summit.

FUTURE INITIATIVES/FUTURE DIRECTION

Thornton Township entered into a grant agreement with Illinois Department of Human Services for a grant in the amount of \$1,000,000 to run the at-risk youth program. The Township will also apply for grants in the future.

FINANCIAL INFORMATION

Accounting System and Budgetary Control - The Township's records for general governmental operations are maintained on an accrual basis, with the revenues being recorded when earned and expenditures being recorded when the liability is incurred or the economic asset is used.

In developing and maintaining the Township's accounting system, consideration is given to the adequacy of the internal control structure. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived and (2) the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe that the Township's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Budgetary control has been established at the individual fund level. Financial reports are produced showing budget and actual expenditures by line item and are distributed monthly to Township departmental and divisional management and to others upon request.

Individual line items are reviewed and analyzed for budgetary compliance. Personnel expenditures are monitored and controlled at a position level and capital expenditures (items over \$5,000 and having a useful life of more than 1 year) are monitored and controlled item by item. Revenue budgets are reviewed monthly.

Additionally, all expenditures are approved by the Supervisor and the Board.

The Reporting Entity and its Services - This report includes all of the funds and activities controlled by the Township.

The Township participates in the Illinois Municipal Retirement Fund and Illinois Counties Risk Management Trust. Those organizations are separate governmental units because (1) they are organized entities, (2) have governmental character, and (3) are substantially autonomous. Audited financial statements for these organizations are not included in this report. However, such statements are available upon request from their respective business offices.

General Government Functions - The reporting period covered by these financial statements encompasses twelve months. Funds are provided for services by taxes, user fees, interest income, grants, donations and miscellaneous sources.

Grant income is a major source of income in FY23. The Township's grant income makes up 5% of the total revenue received from all funds. In addition, property taxes are also a major source of income for general operations. The Township's property taxes make up 81% of the total revenue for the major governmental funds.

The 2021 Assessed valuation was \$1,975,852,866. The 2022 Assessed valuation was not available.

Allocation of the property tax levy for 2022 and 2021 tax years are as follows (amounts for each \$100 of assessed value).

Purpose	2022	2021
General Fund	N/A	0.5420
General Assistance Fund	N/A	0.4070
Road and Bridge Fund	N/A	0.0379
Total Tax Rate	-	0.9869

The Town of Thornton represents the Corporate, Senior Citizens Services and Youth Services. The maximum tax rate for the Corporate Fund is .2500. The maximum tax rate for the Senior Citizens Services and Youth Services is .1500.

Independent Audit - Chapter 50, Section 310/2 of the Illinois Revised Statutes requires that Townships secure a licensed public accountant to perform an annual audit of accounts. The firm of John Kasperek Co., Inc. has performed the audit for the year ended February 28, 2023. Their unmodified opinion on the Townships financial statements is presented in this report.

OTHER INFORMATION

Awards & Acknowledgments

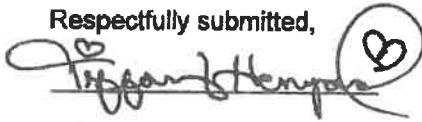

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Thornton Township for its Annual Comprehensive Financial Report for the fiscal year ended February 28, 2022. The Township has received this prestigious award since fiscal year ending February 28, 2019.

In order to be awarded a Certificate of Achievement, the Township published an easily readable and efficiently organized Comprehensive Annual Financial Report. This report satisfied both the generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. The current Annual Comprehensive Financial Report continues to meet the Certificate of Achievement program requirements and is being submitted to the GFOA for consideration of another certificate.

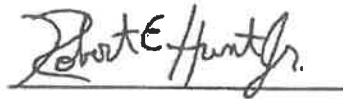

The preparation of this report on a timely basis could not have been accomplished without the efficient and dedicated services of the entire staff. Appreciation is expressed to the Township's employees throughout the organization, especially those employees who were instrumental in the successful completion of this report.

We would like to thank the Thornton Township board and elected officials for their interest and support in planning and conducting the financial operation of the Township in a responsible and progressive manner.

Respectfully submitted,

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Thornton Township, Illinois ("Township") as of and for the year ended February 28, 2023, and the related notes to the financial statements, which collectively comprise the Township's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Thornton Township, Illinois as of February 28, 2023, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Township and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Township's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we

- exercise professional judgement and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt the Township's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Township's basic financial statements. The consolidated year-end financial report is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the consolidated year-end financial report is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated August 31, 2023, on our consideration of Thornton Township's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Township's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Township's internal control over financial reporting and compliance.

THORNTON TOWNSHIP, ILLINOIS
MANAGEMENT'S DISCUSSION AND ANALYSIS
FEBRUARY 28, 2023

As management of Thornton Township ("Township"), we offer readers of the Township's financial statements this narrative overview and analysis of the financial activity of the Township for the fiscal year ended February 28, 2023. We encourage readers to consider the information presented here in conjunction with the Township's financial statements which follow this section.

Financial Highlights

The assets plus deferred outflows of the Township exceeded its liabilities plus deferred inflows at the close of the most recent fiscal year by \$44,903,604 (net position). Of this amount, \$17,104,311 is invested in capital assets and \$10,666,082 is restricted for other purposes. The Township's unrestricted net position, which may be used to meet the government's ongoing obligations, was at a surplus of \$17,133,211.

- The Township's total net position increased by \$1,754,215.
- At February 28, 2023, the Township's governmental funds reported a combined ending fund balance of \$16,074,207.
- At February 28, 2023, the unassigned fund balance for the governmental funds under the General Fund was at a surplus of \$5,408,125.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Township's basic financial statements. The Township's basic financial statements comprise three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of the Township's finances in a manner similar to a private sector business.

The statement of net position presents information on all of the Township's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference between them reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Township is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the Township that are principally supported by taxes, charges for services, grants and investment income. The governmental activities of the Township include general government, home relief, and highways and streets.

THORNTON TOWNSHIP, ILLINOIS
MANAGEMENT'S DISCUSSION AND ANALYSIS
FEBRUARY 28, 2023

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Township, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Township can be divided into two categories: governmental and fiduciary funds.

Governmental Funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Township maintains three individual governmental funds at February 28, 2023. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, General Assistance Fund, and Road and Bridge Fund. The General Fund is the government's primary operating fund. The General Assistance Fund is considered a special revenue fund and is used to account for providing assistance to individuals in financial need. The Road and Bridge fund is also considered a special revenue fund and is used to account for all costs of maintaining and repairing the roads owned by the Township.

The Township adopts an annual appropriated budget for its General Fund, General Assistance Fund, and Road and Bridge Fund. A budgetary comparison statement has been provided for the Funds to demonstrate compliance within this budget.

Fiduciary Funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the Township. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Township's own programs. The Township maintains one fiduciary fund: the OPEB Trust Fund.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Required Supplementary Information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Township's progress in funding its obligation to provide pension benefits and post-employment benefits to its employees and the funds' statements of revenues, expenditures, and changes in fund balance – budget and actual.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Township, assets plus deferred outflows of resources exceeded liabilities plus deferred inflows of resources by \$44,903,604 at the close of February 28, 2023.

By far the largest portion of the Township's net position reflects its investments held at year end and investments in capital assets (e.g., land, buildings, machinery and equipment).

Statement of Net Position
February 28, 2023 and February 28, 2022

	2023	2022
Current and other assets	\$ 34,784,122	\$ 29,544,996

Unrestricted	17,133,211	15,561,550
Total net position	\$ 44,903,604	\$ 43,149,389

An additional portion of the Township's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position may be used to meet the government's ongoing obligations to citizens and creditors.

Governmental Activities. The Township's net position increased by \$1,754,215. Revenues decreased from February 28, 2022 to February 28, 2023 by \$2,063,583 mainly due to an decrease in operating and capital grants..

Major changes in revenue:

- Property tax revenues recorded during the fiscal year 2023 reflect \$17,382,333. There was \$2,144,031 more in property tax revenues collected over the previous year of \$15,238,302 which results in an increase of 14%. Most of the property tax revenues received was from the 2021 and prior levies in which EAV's were dropping each year. The Township has been receiving 85% of its total tax levy extensions. Additional information related to change in EAV and property tax revenue is on page 68.
- Operating grants decreased \$4,168,447 due to USDA commodities decreasing in comparison to prior year.

Major changes in expenditures:

- There was a decrease in Home relief related to the same decrease in revenue for the USDA commodities when compared to prior year. The other decreases were related to salaries which was roughly a 30% decrease overall.

Financial Analysis of the Township's Funds

As noted earlier, the Township uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the Township's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Township's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at February 28, 2023.

As of the end of the current fiscal year, the Township governmental funds reported combined ending fund balance of \$16,074,207, an increase of \$2,933,513 from the previous year.

Fund balance in the General Fund increased by \$3,195,652 due to the issuance of the \$5,000,000 bond. Revenues increased by \$298,089 in comparison to the prior year. Expenditures decreased by \$2,456,122 mainly due to capital outlay decreased by \$1,626,931 and expenditures under Administrative decreased by \$1,002,238.

The General Assistance Fund saw a decrease in fund balance of \$347,685. Revenues decreased by \$5,987,700 mainly from USDA commodities and property taxes. Expenditures decreased by \$4,717,587 due to a decrease in Administrative and Home relief expenditures.

The increase in the Road and Bridge Fund balance was \$85,546, which is attributed to an increase in revenue from replacement taxes and investment income. In addition, expenditures increased by \$267,691 in comparison to the prior year mainly to capital outlay expenditures purchased.

Economic Factors and Other Information

The Township intends to continue to closely monitor expenditures and allocate resources to areas that best meet the needs of its citizenry. The Township will continue to actively seek out grants and all other available revenue sources. The Township received the prestigious 2022 Certificate of Achievement for Excellence in Financial Reporting. This recognition underscores our commitment to transparent financial reporting and adherence to best practices in governmental accounting standards. Comparing the fiscal years 2022 and 2023, Thornton Township made notable strides in optimizing its financial resources and controlling costs. The Township achieved the following:

- **General Funds Administration Salary Reduction:** In fiscal year 2023, the Township successfully reduced the General Funds Administration's salary by \$330,526, marking a substantial decrease of 20%. This accomplishment showcases our commitment to fiscal responsibility and efficient resource utilization.
- **General Assistance Administration Efficiency:** The Township made diligent efforts led to the identification of operational efficiencies within the General Assistance Administration. By streamlining processes and resource allocation, we realized significant savings of \$231,324 in salaries for fiscal year 2023, reflecting a 10% decrease. These savings reflect our dedication to continuous improvement and fiscal prudence.
- **Community Outreach and Engagements:** Thornton Township remained deeply engaged with the community in various impactful ways during the past year with the Thornton Township First Gas Give-Away and the Mental Youth Summit.

THORNTON TOWNSHIP, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
FEBRUARY 28, 2023

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. REPORTING ENTITY

The Township is located in Southern Cook County, Illinois and provides traditional municipal services as authorized by Illinois State Statutes. The Township is a primary government. These financial statements present Thornton Township, Illinois, a legally separate and fiscally independent government.

The Township operates under the Township form of government. Elected officials consist of the Supervisor, Clerk, Assessor, Highway Commissioner, and four Trustees. The Board of Trustees is the Township's legislative body, enacting the laws and establishing the policies which govern the main activities of the Township.

Generally accepted accounting principles require that the financial reporting entity include the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The Township is not considered a component unit of any other government entity.

The only component unit of the Township is the Road and Bridge Fund which is reported as a blended component unit. The Road and Bridge Fund is a separate legal organization but since the Township is financially accountable for this Fund and the primary government has operational responsibility for the component unit, it is reported as a blended component unit. This financial accountability stems primarily from the Boards of the two entities being substantially the same.

B. BASIS OF PRESENTATION

Government-Wide Financial Statements:

The statement of net position and the statement of activities display information about the primary government. These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. These statements present governmental activities of the Township. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the Township's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements:

The fund financial statements provide information about the Township's funds, including governmental and fiduciary funds. Separate statements for each governmental fund category are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All of the Township's governmental funds are considered major funds.

Governmental Funds are those through which most governmental functions of the Township are financed. The acquisition, use, and balances of the Township's expendable financial resources and the related liabilities (arising from cash transactions) are accounted for through governmental funds.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. BASIS OF PRESENTATION (CONTINUED)

The Township reports on the following major funds:

General Fund - The General Fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those accounted for in another fund.

General Assistance Fund - The General Assistance Fund is a special revenue fund. It is used to account for all costs of providing assistance to the financially needy and the related revenues. Revenues of this fund come from property taxes, charges for services, grants and donations.

Road and Bridge Fund - The Road and Bridge Fund is a special revenue fund. It is used to account for all costs of maintaining, improving, or repairing the roads owned by the Township and the related revenues. The Township has elected to report this fund as major. Revenues of this fund come from property taxes and personal property replacement taxes.

The Fiduciary fund accounts for assets held by the Township in a trustee capacity for others. The Township only Fiduciary Fund is the Other Post-Employment Benefits Trust Fund which holds assets to be used for the future payments of benefits offered through the Township's post-employment healthcare benefit plan.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING

Government-Wide Financial Statements and Fiduciary Funds:

The government-wide financial statements and fiduciary funds are reported using the economic resources measurement focus and the accrual basis of accounting. The economic resources measurement focus means all assets, deferred outflows, liabilities, deferred inflows (whether current or noncurrent) are included on the statement of net position and the operating statements present increase (revenues) and decreases (expenses) in total net position. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Nonexchange transactions, in which the Township gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, replacement taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (i.e., intended to finance). Revenue from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements:

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available.

The Township considers all revenues reported in the governmental funds to be available if the revenues are due (or past due) within sixty days after year-end. Property taxes, grants, and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING (CONTINUED)

Under the terms of grant agreements, the Township funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the Township's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then by general revenues.

D. PROPERTY TAXES RECEIVABLE

Current year property tax revenue is from the prior tax levy collections. Property taxes receivable represent the uncollected portion of the 2022 tax levy. These property taxes receivable are not considered available to finance current operations; therefore, the revenue has been deferred and will be recognized as these taxes become available.

The property tax calendar is as follows:

Lien Date	January 1
Levy Date	December 30
Tax bills mailed (at least 30 days prior to collection deadline)	
Taxes levied in December or prior are collected in two installments in the following year:	
First Installment Due	April 3
Second Installment Due	December 1

Property taxes are billed and collected by the County Treasurer of Cook County.

E. CAPITAL ASSETS

Capital assets, which include land, buildings, furniture, equipment, and infrastructure assets (i.e., roads, sidewalks, and similar items) are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the Township as assets with an initial, individual cost of \$2,000 or more and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

The Township has elected not to retroactively record infrastructure as allowed under the Governmental Accounting Standards Board Statement No. 34.

Capital Assets are depreciated using the straight-line method over the following estimated useful lives:

Equipment	5 - 7	years
Other Improvements	10 - 20	years
Buildings	40	years
Road Improvements	10	years
New Infrastructure	40	years

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F. INVENTORIES AND PREPAID ITEMS

Inventories for all funds and activities are expended at the time of purchase (purchase method).

Certain payments to vendors for services that will benefit periods beyond February 28, 2023 are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

G. DEFERRED OUTFLOWS AND INFLOWS OF RESOURCES

Deferred revenues at the fund level arise when potential revenue does not meet the available criterion for recognition in the current period. Deferred revenues also arise when the Township receives resources before it has a legal claim to them. In subsequent periods, when the revenue recognition criterion is met, or when the Township has a legal claim to the resources, the liability for deferred revenue is removed from the balance sheet and revenue is recognized. Deferred revenues at the government-wide level arise only when the Township receives resources before it has a legal claim to them. The Township has deferred outflows and inflows in relation to pensions (see footnote 11) and other post-employment benefits (see footnote 12) that are reflected on the statement of net position.

H. COMPENSATED ABSENCES

All regular full-time employees who have completed the six-month probationary period are eligible for vacation benefits. The amount of vacation time earned is based on years of service and time worked during the proceeding year.

Employees also accumulate vacation time (“comp time”) for hours worked in excess of their base hours in a one- week period. Comp time is accumulated at straight time for hours worked over their base hours and less than 40 hours. For hours worked over 40 hours, the rate of one and one-half time is used. With the approval of the Township Supervisor, an employee can accumulate an unlimited amount of hours and it can be paid out in cash with the Township Supervisor’s approval.

Generally, employees are paid for all accumulated vacation time and overtime compensation upon termination. In the fund financial statements, governmental funds report compensated absences as expenditures and as fund liabilities to the extent that the liabilities have matured (that is, become due for payment during the period). The liabilities for compensated absences that are not currently payable are reported as long-term liabilities in the government-wide statements.

I. USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

J. USE OF RESTRICTED RESOURCES

When both restricted and unrestricted resources are available to use, it is the Township’s policy to use restricted resources first, then unrestricted resources, as they are needed.

K. ELIMINATION AND RECLASSIFICATIONS

In the process of aggregating data for the government-wide financial statements, some amounts reported as interfund activity and balances were eliminated or reclassified.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

L. CASH AND INVESTMENTS

The Township cash consists of checking accounts at financial institutions. Investments including the post-health retirement fund, are reported at fair value. Any change in the value of investments recorded at fair value is included in investment income.

M. NET POSITION/FUND BALANCE

Equity is classified as net position in the government-wide financial statements and displayed in three components:

- *Net investment in capital assets* – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets less than any unspent debt proceeds.
- *Restricted net position* – Consists of net position with constraints placed on its use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or, 2) laws through constitutional provisions, or enabling legislation.
- *Unrestricted net position* – All other net position that does not meet the definition of “restricted” or “net investment in capital assets”.

Fund balance is reported in the fund financial statements in the following five categories:

- Nonspendable includes amounts not in spendable form or amounts required to be maintained intact legally or contractually (principal endowment) (e.g. inventory, pre-paid items, permanent scholarships)
- Restricted: fund balances that are constrained by external parties, constitutional provisions, or enabling legislation. Restrictions imposed by creditors, grantors, and contributors.
- Committed: fund balances that contain self-imposed constraints of the Township from its highest level of decision-making authority, the Board of Trustees. This formal action (a resolution) must occur prior to the end of the reporting period, but the amount of the commitment, which will be subject to the constraints, may be determined in the subsequent period. Those committed amounts cannot be used for any other purpose unless the Board of Trustees removes or changes the specified use by taking the same type of formal action it employed to previously commit those amounts.
- Assigned: fund balances that contain self-imposed constraints of the Township to be used for a particular purpose. Intent should be expressed by a) the Board of Trustees b) the Finance Director and/or c) the Supervisor of the Township.
- Unassigned: includes residual positive fund balance within the General Fund which has not been classified within the other above-mentioned categories. Unassigned fund balance may also include negative balance for any governmental fund if expenditures exceed amounts restricted, committed or assigned for those specific purposes.

Unless specifically identified, expenditures act to reduce restricted balances first, then committed balances, next assigned balances and finally unassigned balances. Expenditures for a specifically identified purpose will act to reduce the specific classification of fund balance that is identified.

NOTE 2. CASH AND INVESTMENTS

Cash and cash equivalents include amounts in demand deposits with a maturity of one year or less. At year-end, the carrying amount of the Township's deposits with financial institutions was \$8,432,062 and the bank balance was \$8,624,774. The difference between deposits with financial institutions and the bank balance is outstanding checks and transfers. The Federal Deposit Insurance Corporation (FDIC) insurance covers all deposit accounts, including checking, savings, money markets, and certificate of deposits with a standard insurance amount of \$250,000 per depositor, per insured bank, for each account ownership category. As of February 28, 2023, the bank balance of \$8,624,774 was collateralized with securities held in the bank's trust account with a third-party agent.

As stated in the Township's investment policy, investments are limited to those authorized under the Illinois Public Funds Investment Act and include (a) securities which are fully guaranteed by the full faith and credit of the United States as to principal and interest; (b) U.S. government obligations and U.S. government agency obligations in the form of bonds, notes, debentures or other similar obligations of the United States of America, its agencies, and its instrumentalities; (c) interest-bearing savings accounts, interest-bearing certificates of deposit, or interest-bearing time deposits of a bank, savings bank, savings and loan associations, or credit union which maintains its principal office in the State of Illinois and is insured by the Federal Deposit Insurance Corporation or the National Credit Union Administration; (d) obligations of corporation organized in the United States with assets exceeding \$500,000,000 if such obligations are rated at the time of purchase at one of the 3 highest classifications established by at least 2 standard rating services and which mature not later than 3 years from the date of purchase, such purchases do not exceed 10% of the corporations outstanding obligations, and no more than one-third of the Townships funds may be invested in such short term obligations; (e) money market mutual funds registered under the Investment Company Act of 1940 and rated at the highest classifications of at least one nationally recognized rating service, provided that the portfolio is limited to obligations describe in (a) and (b) above; (f) interest-bearing bonds of any county, township, municipality, municipal corporation or school district rated at the time of purchase within the four highest classifications of at least one nationally recognized rating service; (g) the Public Treasurer's Investment Pool created under section 17 of the State Treasurer Act, funds managed, operated, and administered by a bank, subsidiary of a bank, or subsidiary of a bank holding company; and (h) the Illinois Trust local government investment pools; and (i) a fund managed, operated, and administered by a bank, subsidiary of a bank, or subsidiary of a bank holding company or which uses the services of such an entity to hold and invest or advise regarding the investment of any public funds.

The primary investment policies of the fund, in the order of priority are as follows:

- (a) Legality – All investments must be allowed by the Public Funds Investment Act as set forth in 30 ILCS 235/2 *et seq.*, or other state statute governing the utilization and investment of public funds.
- (b) Safety – All investments shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. The objective is to mitigate the credit rate and interest rate risk. Diversification is required to eliminate the risk of loss resulting from the concentration in a specific maturity, issuer, or class of securities. Interest rate risk is minimized by structuring investments so that securities mature to meet cash requirements for ongoing operations without selling or cashing in securities on the open market prior to maturity.
- (c) Liquidity – The investment portfolio shall remain sufficiently liquid to meet all operating requirements that may be reasonably anticipated by structuring the portfolio so that securities mature concurrent with cash needs to meet anticipated demands. Since all possible cash demands cannot be anticipated, consideration should be given to investment in securities with active secondary and resale markets. A portion of the investment portfolio may be placed in money market and mutual funds or local government investment pools which offer same-day liquidity for short term funds in a manner consistent with the Public Funds Investment Act.

NOTE 2. CASH AND INVESTMENTS (CONTINUED)

- (d) Yield – The investment portfolio shall be designed with the objectives of attaining a market rate of return throughout the budgetary and economic cycles, taking into account the investment risk constraints and liquidity needs. Return on investment is of secondary importance compared to the safety and liquidity of investments. The core of the investment portfolio is limited to relatively low risk securities.
- (d) Sustainability- The Township shall make relevant, and decision-useful sustainability factors regular consideration, within the bounds of financial and fiduciary prudence, in evaluating investment decisions. Such Factors considered shall include, but are not limited to, the following: corporate governance and leadership factors, environmental factors, social capital factors, human capital factors, and business model and innovation factors as provided under the Illinois Sustainable Investing Act.

Interest Rate Risk. Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. In accordance with the investment policy, interest rate risk is minimized by structuring investments so that securities mature to meet cash requirements for ongoing operations without selling or cashing in securities on the open market prior to maturity.

The following schedule reports the fair values and maturities for the Township’s investments at February 28, 2023:

Credit Risk. Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. The Township’s formal investment policy requires collateralization of all investments or deposits as a means to reducing credit risk. Credit ratings for the Township’s investments are noted in the table above.

Custodial Credit Risk. For an investment, custodial credit risk is the risk that, in the event of the failure of the counter-party, the Township will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Township’s formal investment policy requires collateralization of all investments or deposits as a means to reducing custodial credit risk.

Concentration of Credit Risk. The investment policy of the Township contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the Illinois Compiled Statutes. As of February 28, 2023, the Township held approximately \$412,016 (5.06%) in Federal Farm Credit Bank, Michigan St Strategic \$488,995 (6.00%), State Street Corp \$1,656,311 (20.32%), and \$2,311,219 (38.36%) in US Treasury Notes.

Fair Value Measurement of Investments

The Township categorizes its fair value measurements within the fair value hierarchy established by general accepted accounting principles. The hierarchy is based on the valuation input used to measure the fair value of assets. There were no level 3- inputs are significant unobservable inputs.

Level 1- inputs are quoted prices in active markets for identical assets.

Level 2- inputs are significant other observable inputs which include quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in markets that are not active; or using other inputs such as interest rates and yield curves at commonly quoted intervals, implied volatilities and credit spreads or market-corroborated inputs.

The carrying amount of investment and fair value hierarchy at February 28, 2023 is as follows:

NOTE 7. DEFERRED COMPENSATION PLAN

The Township offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan permits employees to defer a portion of their salary until future years. The plan is available to all employees until termination, retirement, death or unforeseeable emergency. The assets of the plan are held for the exclusive benefit of the plan participants and their beneficiaries and the assets shall not be diverted for any other purpose. Each participant directs the investments in their respective accounts and the Township has no liability for any losses that may be incurred. Plan assets are not available to the creditors of the Township. Therefore, the assets and related liabilities of the plan are not included in the financial records of the Township. The Township contributes a twenty percent (20%) match of eligible employees' deferred compensation contributions to the plan.

NOTE 10. GRANTS

The Township is involved in multiple grant agreements as of February 28, 2023. The Township has received state and local funding from other grants in the current year that are not noted below.

A. INTERGOVERNMENTAL AGREEMENT

The Township has entered into an agreement with Thornton Township Foundation Inc. and Chicago Greater Food Depository. During the period of July 1, 2021 through June 30, 2022, the Township received food valued at \$776,517 in USDA commodities passed through from the Thornton Township Foundation Inc.

B. IDHS GRANT

The Township has entered into an agreement with the Department of Human Services for a state grant for at risk youth. The grant award of \$1,000,000 is for the period of September 1, 2022 through June 30, 2023. During the yearend February 28, 2023, the Township incurred expenditures of \$127,211.

NOTE 11. ILLINOIS MUNICIPAL RETIREMENT FUND

Plan Description

The Township's agent multiple-employer defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The Township's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefit Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois.

IMRF issues a publicly available Annual Comprehensive Financial Report that includes Financial Statements, detailed information about the pension plan's fiduciary net position, and other information. The report is available for download at www.imrf.org.

Benefit Provided

IMRF benefit plans have two tiers. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96.

NOTE 11. ILLINOIS MUNICIPAL RETIREMENT FUND (CONTINUED)

Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by Benefit Terms

As of December 31, 2022, the following employees were covered by the benefit terms:

Retirees and Beneficiaries currently receiving benefits	95
Inactive Plan Members entitled to but not yet receiving benefits	68
Active Plan Members	<u>99</u>
Total	<u><u>262</u></u>

Contributions

As set by statute, the Township's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The Township's annual contribution rate for calendar year 2022 was 8.66%. For the fiscal year ended February 28, 2023, the Township contributed \$460,138 to the plan. The Township also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability

The Township's net pension liability was measured as of December 31, 2022. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions

The following are the methods and assumptions used to determine total pension liability at December 31, 2022:

- The Actuarial Cost Method used was Entry Age Normal.
- The Asset Valuation Method used was Market Value of Assets.
- The Inflation Rate was assumed to be 2.25%.
- Salary Increases were expected to be 2.85% to 13.75%, including inflation.
- The Investment Rate of Return was assumed to be 7.25%.
- Projected Retirement Age was from the Experience-based Table of Rates, specific to the type of eligibility condition, last updated for the 2020 valuation pursuant to an experience study of the period 2017 to 2019.
- For Non-Disabled Retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020.
- For Disabled Retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class.

These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table as of December 31, 2022:

Asset Class	Portfolio Target Percentage	Projected Returns/Risk		
		Return 12/31/22	One Year Arithmetic	Ten Year Geometric
Equities	35.5%	-19.12%	7.82%	6.50%

Single Discount Rate

A single discount rate of 7.25% was used to measure the total pension liability. The projection of cash flow used to determine this single discount rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The single discount rate reflects:

1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the plan's projected fiduciary net position is not sufficient to pay benefits).

NOTE 12. OTHER POSTEMPLOYMENT BENEFITS

In addition to providing the pension benefits described, the Township provides postemployment health care and life insurance benefits (OPEB) for retired employees through a single-employer defined benefit plan (the plan). The benefits, benefit levels, employee contributions and employer contributions are governed by the Township and can be amended by the Township through its personnel manual. The activity of the plan is reported in the Township's OPEB Trust Fund.

Management of the plan is vested with the plan's Board of Trustees. The Board of Trustees consists of five members: the Township Supervisor and four elected trustees.

The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

Benefits Provided. Active employees that retire with less than 20 years of service receive healthcare coverage on the Township's plan through IMRF continuation of coverage statute, if they meet IMRF eligibility requirements. Employees with less than 20 years of service may continue medical coverage on a retiree-pay-all basis. This coverage is not offered to dependents of retirees.

Membership. Membership in the plan consisted of the following as of February 28, 2023:

Active Employees	101
Retired Plan Members	<u>9</u>
Total	<u><u>110</u></u>

Contributions. In conjunction with the preparation of the annual actuarial valuation for the OPEB Trust Fund, the OPEB Trust Fund's actuary calculates the Township's actuarially determined contribution (ADC) for the Township's fiscal year after the next. Fiscal year 2018 was the first year of the OPEB Trust Fund. The Township elected to contribute an amount that substantially funded the total OPEB liability as initially calculated. There were no employer contributions in fiscal year 2023.

For employees that retire with 20 to 25 years of service, the Township pays 25% of the premium for retiree-only medical coverage, for employees with 25 to 30 years of service; the Township pays 50% of the premium for the retiree-only medical coverage and for employees with 30 or more years of service; the Township pays 100% of the premium for the retiree-only medical coverage. For the year ended February 28, 2023, the Township's contribution was (6.94%) of covered payroll.

Deposits and Investments

The cash and investments of the OPEB Trust Fund are held separately from those of the Township and are under the control of the OPEB Trust Fund's Board of Trustees.

The OPEB Trust Fund categorizes the fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

The OPEB Trust Fund's trust document empowers the Board of Trustees to establish the OPEB Trust Fund's investment policy. The Board of Trustees has not formally approved an investment policy as of February 28, 2023 for the OPEB Trust fund, but the Township follows the same investment policy as the general fund investment policy.

NOTE 12. OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

Deposits and Investments (Continued)

The Board of Trustees may invest the assets of the OPEB Trust Fund in securities allowable under Illinois Compiled Statutes. As of February 28, 2023, 100% of the OPEB Trust Fund's portfolio was invested in mutual funds. The mutual funds are valued using trade platform data (Level 1 inputs).

Custodial Credit Risk for Investments. Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the OPEB Trust Fund will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the OPEB Trust Fund requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment (DVP) basis with the underlying investments held by a third party acting as the OPEB Trust Fund's agent separate from where the investment was purchased in the OPEB Trust Fund's name.

Concentration of Credit Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The OPEB Trust Fund's practice states that the plan's assets shall be diversified to reduce the risk of large losses. There are no significant investments in any one organization that represent 5% or more of plan's investments.

Rate of Return. For the year ended February 28, 2023, the annual money-weighted rate of return on OPEB Trust Fund investments, net of OPEB Trust Fund investment income, was 8.27%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Discount Rate

The discount rate used in the determination of the total OPEB liability is based on a combination of the expected long-term rate of return on plan investments and the municipal bond rate.

A single discount rate of 6.00% was used to measure the total OPEB liability. The projection of cash flow used to determine this single discount rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The single discount rate reflects:

1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 6.00%, the municipal bond rate is 3.75% based on the daily rate closest to but no later than the measurement date of the "20-Bond Go index" and the resulting single discount rate is 6.00%.

Net OPEB Liability

The Township's net OPEB liability was measured as of February 28, 2023, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation dated March 1, 2022.

NOTE 13. RECENT GASB PRONOUNCEMENTS

GASB Statement No. 96, “Subscription-Based Information Technology Arrangements (SBITA’s)” provides guidance on the accounting and financial report for SBITA’s for government users. The requirements of this Statement will take effect for financial statements starting with the fiscal year ends June 30, 2023.

GASB Statement No. 99, “Omnibus 2022” requirements are related to leases, PPP’s, and SBITA’s that will take effect for financial statements starting with the fiscal year ends June 30, 2023. The objective is to enhance comparability in accounting and financial reporting and improve the consistency of authoritative literature. The requirements related to financial guarantees and the classification and reporting of derivative instruments within the scope of the Statement 53 will take effect for financial statements starting with the fiscal year that ends June 30, 2024.

GASB Statement No. 100, “Accounting Changes and Error Corrections – An Amendment of GASB Statement No. 62” will be effective for accounting changes and error corrections made in fiscal years beginning after June 15, 2023. The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability.

GASB Statement No. 101, “Compensated Absences” will be effective for fiscal years beginning after December 15, 2023. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures.

Valuation Date:

Actuarially determined contribution rates are calculated as of December 31 each year, which is 12 months prior to the beginning of the fiscal year in which contributions are reported.

Methods and Assumptions Used to Determine 2022 Contribution Rates:

Actuarial cost method:	Aggregate Entry Age Normal
Amortization method:	Level Percentage of Payroll, Closed
Remaining amortization period:	Non-Taxing bodies: 10-year rolling period. Taxing bodies (Regular, SLEP, and ECO groups): 21-year closed period
Asset valuation method:	Early retirement Incentive Plan liabilities; a period up to 10 years selected by the Employer upon adoption of ERI
Wage growth:	5-year smoothed market; 20% corridor
Price inflation:	2.75%
Salary increases:	2.25%
Investment rate of return:	2.85% to 13.75%, including inflation
Retirement age:	7.25%
Mortality:	Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2020 valuation pursuant to an experience study of the period 2017 to 2019.
	For non-disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

Other Information:

Notes: There were no benefit changes during the year.

THORNTON TOWNSHIP, ILLINOIS
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FEBRUARY 28, 2023

NOTE 1. BUDGET AND BUDGETARY ACCOUNTING

The Township is required by state law to adopt annual budgets for the General Fund, the General Assistance Fund, and the Road and Bridge Fund. The budget for all governmental fund types is prepared on the accrual basis of accounting. The Township follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Estimated revenues are based on amounts expected to be received during the fiscal year. Such estimates do not differ materially from a modified accrual basis of accounting.
2. Appropriations are estimated based on anticipated cash needs for specifically identified projects.
3. Appropriation amendments require the approval of the Board of Trustees.
4. When deemed necessary, the Board of Trustees approves a resolution to transfer amounts from under-expended items to over-expended items which does not increase or decrease the total appropriation for any fund.
5. Unused appropriations lapse at year-end.

All funds of the Township have legally adopted budgets except for the OPEB Trust Fund. The original budget was adopted on May 24, 2022. The budget was amended on May 9, 2023 using the method described in item 4 above.

NOTE 2. PENSION AND OPEB PLANS

The actuarial methods and assumptions used to calculate the total pension liability (asset) and total OPEB liability (asset) are described in Notes 11 and 12, respectively, to the financial statements.

(1) Tax rates are expressed in dollars per \$100 of equalized assessed value.

(2) It should be noted that the boundaries of some of the overlapping governments listed only partially overlap the Township and, therefore, the totals shown above overstate the tax rates for individual taxpayers within the Township.

(1) For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable assessed value that is within the Township's boundaries and dividing it by each unit's total taxable assessed value.

(2) Overlapping governments are those that coincide, at least in part, with the geographic boundaries of Thornton Township. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Thornton Township. This process recognizes that, when considering the Township's ability to issue and repay longterm debt, the entire debt burden borne by the residents and business should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.
