For its Annual Comprehensive
Financial Report
For the Fiscal Year Ended

March 31, 2022

Christopher P. Morill

Executive Director/CEO

August 9, 2023

To the Honorable President,
Members of the Village Board
Citizens of the Village of Shorewood:

The Annual Comprehensive Financial Report for the Village of Shorewood, Illinois (Village) is hereby submitted. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the Village. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and changes in financial position of the various funds of the Village and the Village as a whole at the entity-wide level. All disclosures necessary to enable the reader to gain an understanding of the Village's financial activities have been included.

We are pleased to report that the independent audit firm Sikich LLP has issued an unmodified opinion on the Village's financial statements for the year ended March 31, 2023. The independent auditors' report is located at the front of the financial section of the Annual Comprehensive Financial Report.

Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

Profile of the Village of Shorewood

The Village of Shorewood was incorporated in 1957 under the provisions of Chapter 24 of the Illinois Revised Statutes, as amended, and at the close of the fiscal year operated as a home rule until of government. The Village is located in Will County in the State of Illinois and is 40 miles southwest of Chicago. The Village of Shorewood is located adjacent to the intersection of Interstate 55 and Interstate 80 and further accessed by State Highway Routes 52 and 59. The Village of Shorewood currently occupies a land area of 7.0 square miles with a potential planning area of twenty square miles. The 2020 census listed a population of 18,186 residents, a 3.9% increase over the 2017 special census of 17,495 residents. Shorewood is empowered to levy a property tax on real property located within its boundaries. It also is empowered by state statute to extend its corporate limits by annexation, which it has done from time to time.

The Village operates under a council-manager form of government as defined by the Illinois Municipal Code. The Village President, Village Clerk, and six trustees are elected at large to serve four-year terms, with three trustees elected every second year. The Village Administrator is hired by the Village President and the Board of Trustees. All department managers are hired by the Village Administrator.

Management of the Village is responsible for establishing and maintaining internal controls designed to provide assurance that the assets of the Village are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived and (2) the valuation of costs and benefits requires estimates and judgments by management.

The Village provides a full range of services. These services include police protection, water and sanitary sewer service, stormwater sewer service, park and recreation programs, construction and maintenance streets and other public infrastructure, refuse removal, planning and zoning, code enforcement, and financial and general administrative services. The Village of Shorewood is also served by two independent agencies: the Shorewood-Troy Public Library and the Troy Fire Protection District.

The Village adopts a final budget no later than the close of the fiscal year but continues to operate under the Appropriation Ordinance which is filed no later than June 30th of each year. The annual budget serves as the foundation for the Village of Shorewood's financial planning and control. The budget is prepared by fund, department, and program. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the budgeted amount) is established at the fund level. The Village operates several unbudgeted funds including Drug Prevention and Asset Forfeiture. Revenues and expenses in these funds are infrequent, immaterial, and nonrecurring. When transactions occur, they are subject to the Village's purchasing policy and Village Board approval.

Factors Affecting Financial Condition

Single family home construction decreased in the current year, with 68 permits issued in the 2022-23 fiscal year. New home construction continued in the Village with several existing subdivisions continuing build-outs. The Village is nearing completion of construction of available lots in existing subdivisions.

Commercial development continues within the Village. New commercial construction continued on Route 59, filling most available space on that route within the Village. The focus of commercial development will shift to encourage growth westward along Route 52.

Sales tax is the largest single source of revenue in the General Fund, and the current year resulted in a total of \$5,789,562. This represents the largest single-year total to date. The Village is committed to diversifying the sales tax base. This represents the second full year of the recognition of destination-based sales tax for most transactions in Illinois.

The Village's water supply is currently served by both shallow and deep wells with a water treatment facility to treat the water from the deep wells. During the 2021-22 fiscal year, the Village with five other communities created a commission to connect to Lake Michigan water by 2030. The Grand Prairie Water Commission will provide sustainable and reliable water supply to meet the water needs and support continued growth and development in our region. This represents a substantial financial investment from the Village. Total project costs are estimated to exceed \$1B, with the Village's share exceeding \$100M. A range of financing tools are being considered to fund this project, including grants, state and federal loans, and bonds. Additional information can be found on the commission's website at www.gpwc-il.org.

Long-Term Financial Planning

The Village of Shorewood has established a resolution establishing a fund balance policy for the General Fund (Resolution No. 11R-784) in compliance with GASB 54. The fund balance is the reserve of the general fund and as such, the Village Board recognizes that a sufficient level of unrestricted fund balance should be assigned for operating reserves for the continued and orderly operation of the Village of Shorewood, the provision of services to the residents, and the continued stability of the tax structure.

Furthermore, an assigned operating reserve should be maintained in the General Fund sufficient to handle emergency needs and be available to cover unfavorable variances in estimating the revenue and expenditure budget. The Village Board has established that the level of the assigned operating reserve in the fund balance for the General Fund sub-fund should be three months (25%) of the current fiscal year's operating expenditures. With yearly General Fund sub-fund expenditures for 2023 at \$13,639,554 and a General Fund sub-fund unrestricted fund balance at March 31, 2023 of \$6,070,822, the Village is compliant with this resolution.

Independent Audit

State statutes require an annual audit by independent certified public accountants. The accounting firm of Sikich LLP was selected by the Village Board. The auditor's report on the basic financial statements and combining and individual fund financial statements and schedules is included in the financial section of this report.

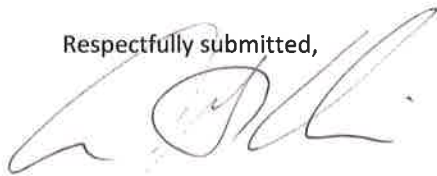

Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Village of Shorewood for its annual comprehensive financial report for the fiscal year ended 3/31/2022. This was the sixteenth consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to GFOA to determine eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated service of the entire staff of the finance and administration departments. We wish to express our appreciation to all members of these departments who assisted and contributed to the preparation of this report. Most importantly, we would like to thank the Village President and Board of Trustees for their leadership and support in planning and conducting the financial operations of the Village in a responsible and progressive manner.

Respectfully submitted,

Aaron Klima
Village Administrator

Anne R. Burkholder
Finance Director/Village Treasurer

INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor
Members of the Board of Trustees
Village of Shorewood, Illinois

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Village of Shorewood, Illinois (the Village) as of and for the year ended March 31, 2023 and the related notes to financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Village of Shorewood, Illinois, as of March 31, 2023, and the respective change in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

The Village adopted new accounting guidance, GASB Statement No. 87, *Leases*, during the year ended March 31, 2023. The implementation of this guidance resulted in changes to the assets, deferred inflows of resources, revenues and notes to the financial statements (see notes 12 and 13 for additional information). Our opinion is not modified with respect to this matter.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under these standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Village and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Village's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Village's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinion on the Village's basic financial statements as a whole. The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 9, 2023, on our consideration of the Village's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Village's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Village's internal control over financial reporting and compliance.

Sikich LLP

Naperville, Illinois

**GENERAL PURPOSE EXTERNAL
FINANCIAL STATEMENTS**

VILLAGE OF SHOREWOOD, ILLINOIS
MANAGEMENT'S DISCUSSION AND ANALYSIS
March 31, 2023

As the management of the Village of Shorewood (the “village”), we offer readers of the village’s financial statements this narrative overview and analysis of the village’s financial activities for the fiscal year ended March 31, 2023. This discussion and analysis is designed to:

- Assist the reader in focusing on significant financial issues
- Provide an overview of the village’s financial activities
- Identify changes in the village’s financial position (its ability to address the next and subsequent year challenges)
- Identify any material deviations from the financial plan (the approved budget),
- Identify individual fund issues or concerns.

We encourage readers to consider information presented here in conjunction with additional information presented in our letter of transmittal found on pages iv–vi and the village’s financial statements which begin on page 5.

Financial Highlights

- The assets and deferred outflows of resources of the village exceeded its liabilities and deferred inflows of resources at the close of the fiscal year by \$176,413,998 which includes the net investment in capital assets of \$123,655,023.
- As of the close of the current fiscal year, the village’s governmental funds reported combined ending fund balances of \$14,411,220, a decrease of \$4,328,242 in comparison with the prior year.
- Approximately 76% of this total fund balance amount or \$10,992,912 is available for spending at the government’s discretion as unrestricted fund balance.
- At the end of the fiscal year, unrestricted fund balance for the General Fund sub-fund was \$6,070,822, which represents 45% of the total General Fund sub-fund expenditures for the fiscal year.

USING THE FINANCIAL SECTION OF THIS ANNUAL COMPREHENSIVE FINANCIAL REPORT

The focus of the financial statements is on both the village as a whole (government-wide) and on the major individual funds. Both perspectives (government-wide and major fund) allow the user to address relevant questions, broaden a basis for comparison (year-to-year or government-to-government) and enhance the village’s accountability.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the village’s finances, in a manner similar to a private sector business.

The *Statement of Net Position* presents information on all of the village's assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference between the two reported as net position. This statement combines and consolidates governmental fund's current financial resources (short-term, spendable resources) with capital assets and long-term obligations using the accrual basis of accounting which maintains its measurement focus on economic resources rather than spendable financial resources. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the village is improving or deteriorating.

The *Statement of Activities* presents information on how the village's net position has changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future periods (e.g. earned but unused employee leave time). The *Statement of Activities* also reports the extent to which various expenses for governmental or business-type functions are dependent upon user-charges, grant sources, or general tax and other revenues.

Both of the government-wide financial statements distinguish functions of the village which are principally supported by taxes and intergovernmental revenues (governmental activities) from those functions which are intended to recover all or a significant portion of their costs through user-fees and charges (business-type activities). The Governmental Activities reflect the village's basic services, including police, public works (including refuse hauling), parks, and administration. Shared state sales tax, utility taxes, real estate taxes, and shared state income taxes finance the majority of these services. The Business-type Activities reflect private sector type operations (Water and Sewer) where the charges for service typically cover all or most of the cost of operation, including depreciation.

Fund Financial Statements

Traditional users of governmental financial statements will find the fund financial statements presentation more familiar. A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The village uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the village's most significant funds rather than the village as a whole. Major Funds are separately reported while all others are combined into a single, aggregated presentation. Individual fund data for non-major funds is provided in the form of combining statements in a later section of this report.

The funds encompass essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental fund statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near-term. The government-wide financial statements provide a long-term view. These two perspectives can provide insight into the long-term impact of short-term financing decisions. Both the governmental funds balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances are followed by statements reconciling the differences between these two perspectives.

The village adopts an annual budget for each of its governmental funds. A budgetary comparison statement has been provided in the required supplementary information section or the combining and individual fund financial statements and schedules section of this report to demonstrate compliance with the budget.

The basic governmental fund financial statements can be found on pages 9-12 of this report.

Proprietary Funds: The village maintains one proprietary fund, also referred to as an enterprise fund, to account for its water and sewer activities. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements and use the economic resources measurement focus and accrual basis of accounting, similar to private-sector businesses.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. Water and Sewer Fund data, including budget compliance information, is located in the combining and individual fund financial statements and schedules section of this report.

The basic proprietary fund financial statements can be found on pages 13-17 of this report.

Fiduciary Funds: Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the village's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The village maintains one fiduciary fund which accounts for the resources of the Shorewood Police Pension Fund.

The fiduciary fund financial statements can be found on pages 18-19 of this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 20-60 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the village's progress in funding its obligation to employee retirement and other postemployment benefit plans. Required supplementary information can be found on pages 61-72 of this report.

Major funds are reported in the basic financial statements as discussed. Combining and individual statements and schedules for non-major funds are presented in a subsequent section of this report beginning on page 73. The last section of the report is the statistical section beginning on page 93 and includes information on government-wide revenue and expenses, property taxes, and miscellaneous statistics.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

Statement of Net Position

The following table presents a condensed Statement of Net Position as of March 31, 2023 compared to the prior year ended March 31, 2022.

Condensed Statement of Net Position as of March 31, 2023 (in millions)

Net investment in capital assets	97.00	102.88	26.65	27.03	123.65	129.91
Restricted	2.91	2.61	0.00	0.00	2.91	2.61
Unrestricted	<u>7.00</u>	<u>2.50</u>	<u>42.85</u>	<u>33.50</u>	<u>49.85</u>	<u>36.00</u>
Total Net Position	<u>\$106.91</u>	<u>\$107.99</u>	<u>\$ 69.50</u>	<u>\$ 60.53</u>	<u>\$ 176.41</u>	<u>\$ 168.52</u>

Net position may serve over time as one useful indicator of a government's financial condition. The assets and deferred outflows of resources of the Village of Shorewood exceeded the liabilities and deferred inflows of resources by \$176,413,998 as of March 31, 2023. Total net position increased by \$7.89M in 2023 compared to the prior year. Of this amount, Governmental activities accounted for a decrease of \$1.08M while Business-type activities increased by \$8.97M.

The largest portion of net position (70%) reflects the village's net investment in capital assets (land, streets, water mains, sewers, building, bridges, machinery, and equipment) less any related debt issued to acquire these capital assets. The village uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

Restricted net position represents resources that are subject to external restrictions on how they may be used. Governmental restricted net position includes Motor Fuel Tax funds for the maintenance of roadways, building permit fees designated for park construction, real estate taxes dedicated for economic development uses in the TIF, as well as asset forfeiture funds and drug prevention funds, which are used for public safety and education.

Changes in Net Position (from the Statement of Activities)

For the fiscal year ended March 31, 2023, revenue from all sources totaled \$37.54M. Governmental revenue accounted for \$21.63M of that total, while business-type activities accounted for \$15.91M. Expenses for all functions totaled \$29.66M with \$21.15M for governmental activities and \$8.51M for business-type activities.

Condensed Statement of Activities for the Year Ended March 31, 2023 (in millions)

	Governmental Activities		Business-Type Activities		Total

Governmental Activities

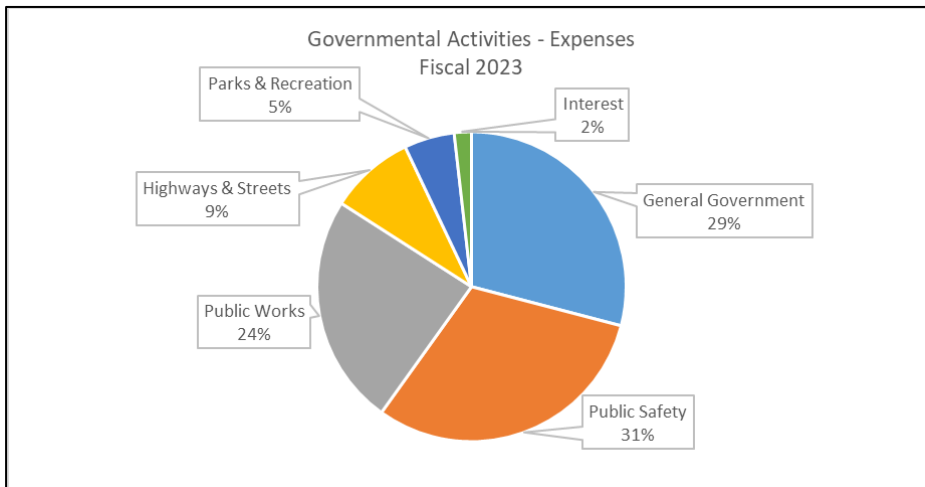

Revenues - For the fiscal year ended March 31, 2023, governmental revenues total \$21.63M with 67% coming from taxes. Property taxes totaled \$2,526,775 of governmental revenues; an increase of 5.28% from the prior year. The increase in property tax revenue is the result of additional pension requirements and additional increment received in the TIF. Charges for services, at \$3,747,752 represent 17% of total governmental revenues. This is an increase of \$512,045, or 15.82% from the prior year. This revenue

category includes fees, licenses, and refuse removal. The increase is attributed to an increase in refuse and recycling charges as well as increased revenue derived from Special Events.

Expenses - Expenses for governmental activities totaled \$21,143,878 including public safety, public works, parks and recreation, highways and streets, general government, and interest expense functions. Public safety expenses are mainly accounted for in the police department in the General Fund and totaled \$6,520,727

or 31%. Public works made up 24% of all governmental expenses in 2023 with \$5,106,555. Public works expenses are accounted for in the Public Works department of the General Fund and in the Capital Projects Fund. General government expenses are also accounted for in the General Fund and include the Village Board

and Administration, Professional Services, Liability Insurance, Finance, and Community Development Departments. Total general government expenses were \$6,145,458 or 29% of all governmental expenses in 2023. Public safety expenses and public works expenses are largely comprised of personnel services. Interest expense of \$380,835 was recorded in the Debt Service Fund and is the interest paid on outstanding debt along with the costs of maintaining debt during the current year. This represents an decrease over the prior year of \$530,990 as the first interest payment on the Village’s 2021 GO Bonds was accrued in the prior fiscal year.

Business-Type Activities

Revenue - Charges for water and sewer service rose from the prior fiscal year with a plus variance of 6.0%. Sewer rates increased with an effective date of 1/1/23, due to an increase in rates charged to the Village by the City of Joliet. Water rates increased by \$1.00 per 1,000 gallons of consumption on 5/1/2022. The additional revenues are being set aside for the Village’s ongoing expenses to connect to Lake Michigan water. The increase in revenue is both due to the additional rate as well as increased consumption. The tax revenue recognized in business-type activities is the collection of a Home Rules sales tax. A successful home rule referendum during 2015 allowed the village to implement a Home Rule sales tax at a rate of 1.75% beginning in January 2016. A portion of this revenue stream was previously recognized in the governmental activities and was used to rebate a percentage of property taxes that qualifying residents paid to the village. The property tax rebate program did not occur during FY 2023, resulting in the

decreased amount of sales tax recognized in the governmental funds. The majority of the Home Rule sales tax is designated for the purchase of additional sewer capacity from the City of Joliet and for capital projects. A portion is also dedicated to the acquisition costs of Lake Michigan water. Collections recognized in the Capital Improvement Fund and the Lake Michigan Water Fund for the purchase of sanitary sewer capacity, the acquisition of Lake Michigan Water and other capital needs totaled \$7,075,142.

Expenses – The largest increase for water and sewer expenses is depreciation. Most other expense increases can be attributed to personnel, capital needs, and fees paid to the City of Joliet for sanitary sewer treatment.

General Fund Functions and Fund Balance

Revenue - The General Fund is the village's primary operating fund and the largest source of day-to-day service delivery.

**General Fund Revenues
 For the Fiscal Year Ended 3/31/2023**

	2023	2022	Variance	% Inc (Dec)
Property Taxes	\$ 2,140,306	\$ 2,097,694	\$ 42,612	2.03%
Other Taxes	8,199,244	8,090,133	109,111	1.35%
Licenses, Permits & Fines	824,518	873,286	(48,768)	(5.58)%
Franchise Fees	355,274	364,440	(9,166)	(2.52)%
Intergovernmental	4,398,793	3,753,775	645,018	17.18%
Charges for Service	2,923,234	2,362,421	560,813	23.74%
Investment Income	149,008	(60,397)	209,405	(346.71)%
Miscellaneous	172,386	154,373	18,013	11.67%
Total Revenue	\$ 19,162,763	\$ 17,635,725	\$ 1,527,038	8.66%

Property Taxes – Shorewood’s Equalized Assessed Valuation (EAV) increased for the ninth consecutive year after four years of declining EAV. The 2022 EAV (taxes payable in FY 2024) is \$2,162,360,874, which represents an increase of 6.99% from the 2021 EAV of \$2,021,064,156. The direct tax rate has decreased from 0.2828 in 2011 to 0.2637 in 2022 (inclusive of debt). The increase in total dollars levied for the 2023 fiscal year was applied to the Police Pension Fund. Taxes levied are collected in the subsequent fiscal year.

Other Taxes – Sales tax revenue is the most significant revenue stream in the General Fund, making up 30% of fund revenues. The village continues to diversify its tax base. The top ten sales tax providers (see Statistical Section) contribute the majority of the total sales tax revenue emphasizing the continued need to diversify the tax base to insulate from a downturn in any one category. The village has made strides toward this goal, decreasing from 65% of total sales tax provided by the top ten sales tax providers in 2014 to 51% in the current year. Sales tax receipts increased from \$5,587,511 in the prior year to \$5,789,562, or 3.61% in the current year.

Licenses, Permits & Fines – Licenses, permits, and fines showed a decrease of 5.58% from the previous fiscal year. This category includes fees for building and development costs, as well as police fines and fees. Development in the current year has decreased with residential construction slowing as the inventory of available lots has diminished. The Village is communicating with developers and land owners to encourage future residential development.

Intergovernmental – The revenue in this category is made up of the Village’s share of State Income Tax and grant income. The increase is attributed to additional grant receipts and a 19% increase in State Income Tax with returns at \$2,969,465. State Income Tax is distributed on a per capita basis, so it does not represent the personal or corporate income tax paid by individuals or businesses in Shorewood. This category also includes funds received through the American Rescue Plan Act (ARPA). This was the second of a two year disbursement program, so this category is expected to decrease in the 2024 fiscal year.

Charges for Service – The Village of Shorewood charges residents for refuse on their monthly utility bill. Revenue for this service is recorded in the General Fund as Charges for Service. The village then pays an independent waste hauler for this service. Refuse revenue increased by \$25,784 during 2023. The increase can be attributed to an increase in housing counts, as the monthly fee in 2023 was unchanged from 2022.

The remaining revenues in this category saw positive changes since the prior year, including parks revenues (program activities, sponsorship, and special events), as well as penalty revenue on past due refuse and recycling balances.

Investment Income – Unfavorable market rates resulted in an investment loss of \$60,397 in the prior year. Fortunately, market conditions improved in the current year, resulting in investment income of \$149,008.

Miscellaneous Revenue – Miscellaneous revenue includes employee contributions for health insurance and other nonrecurring revenue streams. A slight increase is recorded in employee contributions.

Expenditures – The following is a summary of General Fund expenditures for fiscal 2023.

General Fund Expenditures For the Fiscal Year Ended 3/31/2023				
	2023	2022	Variance	% Inc (Dec)
General Government	\$ 4,760,157	\$ 4,874,751	\$ (114,594)	(2.35)%
Public Safety	5,975,981	5,558,284	417,697	7.51%
Public Works	2,140,605	2,013,323	127,282	6.32%
Parks & Recreation	876,412	718,040	158,372	22.06%
Capital Outlay	309,586	468,905	(159,319)	(33.98)%
Total Expenditures	14,062,741	13,633,303	\$ 429,438	3.15%

General Government – Expenditures in general government decreased over the prior year. This is a balance of some spending reductions coupled with some spending increases. Decreases are attributed to Village not conducting the Property Tax Rebate Program during 2023 and several personnel vacancies in the Inspections and Community Development Departments. Increases are attributed to normal wage and benefit increases and increased spending on the Village’s liability insurance and legal fees.

Public Safety – The police department reported a 7.51% increase in expenses over the previous year. This is mostly attributed to personnel, as two additional part time positions and one officer were added to the police department during the fiscal year, combined with normal wage increases. Additionally, amounts contributed to the Police Pension Fund increased. These increases were offset by a decrease in the amount paid to a third party for dispatching service, as well as decreased spending on commodities.

Public Works – The public works department reported an increase in expenses of 6.32% from the prior year in 2023. Wage and benefit increases were offset by several position vacancies as well as a redistribution of personnel expenses split between the General Fund and the Water Sewer Fund to reflect actual work patterns; therefore total personnel expenses in Public Works decreased by 1.2%. This decrease was offset by additional funds spent on contractual services (contractual lawn maintenance and tree pruning), and commodities (such as road salt, up 178%, and equipment and vehicle parts, which increased by 12%).

Parks and Recreation – The Parks and Recreation Department reported an increase of 22% over the prior year. Personnel expenses increased as a result of one additional part-time employee as well as normal wage and benefit increases. Contractual services increased as the Village added new Special Events and enhanced several existing special events.

**Schedule of Budget vs. Actual Performance – General Fund
For the Fiscal Year Ending 3/31/2023**

	Original & Final Appropriation	Original & Final Operating Budget	Actual	Variance (Over)/Under Budget

Fund Balance, March 31			\$ 9,831,069	

General Fund Budgetary Highlights

The Village General Fund in the Annual Comprehensive Financial Report is comprised of the General Operating Fund and several sub-funds including the Park Fund and the Major Equipment Replacement Fund. While the General Operating Fund has historically had a balanced budget, the Major Equipment Fund often presents an unbalanced budget, depending on the purchase plan for the year. In the 2022-23 budget, planned revenues were greater than planned expenditures. Additionally, supply chain delays prevented the Village from making planned vehicle purchases, resulting in a positive budget variance in the Major Equipment Replacement sub-fund.

Budgets are prepared on a conservative basis and sales tax, which represents over 30% of the General Fund revenue, exceeded of the budget figure by 5.93%. The following chart displays sales tax trends in the Village of Shorewood, exclusive of Non Home Rule (fiscal years 2012-2015) and Home Rule (FY 2016-current) sales taxes.

The above chart displays the trend of sales tax revenue in the Village. The current year's figure of \$5.79M is an increase of 3.62% from the prior year, and also represents the Village's highest single fiscal year returns. The dramatic increase in 2022 fiscal year represents the first year of sales following Illinois Public Acts 101-31 and 101-604, which amended the Retailers' Occupation Tax and enacted the Leveling the Playing Field for Illinois Retail Act to implement a series of structural changes to the Illinois sales tax laws to require "remote retailers" to remit State and local retailers' occupation taxes beginning January 1, 2021.

The Village's positive budget performance during the 2023 fiscal year is the result of conservative budget practices, positive revenue returns, and watchful spending. The resulting surplus in the General Fund sub-fund of \$3,612,290 was transferred to the Lake Michigan Water Sub-Fund for future water needs.

The Village of Shorewood has chosen to operate with the appropriation ordinance as its legal spending document. The budget, which is adopted by resolution, serves as the village's operating plan and is used as the spending policy by all village programs. The utilization of the annual appropriation ordinance allows the village more flexibility in appropriating for unforeseen emergencies and contingencies. For this reason, the appropriated amounts are displayed in the above chart. Revenues are not appropriated.

Capital Projects Fund

The Capital Projects Fund is a major fund in the current year due to the increased fund activity. Debt was issued in the previous fiscal year in the amount of \$14.2M to finance the construction of a unified public works facility. Construction began in 2021 and will concluded in 2023. Additional revenue sources in this fund include some intergovernmental grants, transfers from the Capital Improvement Fund, and a local Motor Fuel Tax in the amount of \$.05/gallon on gasoline and \$.08/gallon on diesel sold at fueling staitons within the Village.

Expenses in the current year are related to ongoing non-water and sewer capital projects within the Village, including:

- Unified Public Works Facility Completion \$5.8M
- Engineering expense of \$386k for the widening of Seil Rd and the related replacement of the Seil Rd Bridge over the DuPage River

The Capital Projects Fund also facilitated the Village's commitment to outdoor spaces and recreation with an increase in park construction spending, including the following:

- Reconstruction of two neighborhood parks
 - Diana St. Park - \$178k
 - Kits Korner Park - \$180k
- Engineering expense of \$51k for the construction of a new Community Park, River's Edge Park

Business-type Activities

The Water/Sewer Fund revenue and expenses include the daily operation of the water and sewer systems and also the Capital Improvement sub-fund which is used to fund capital projects for the water and sewer system. Additionally, the Lake Michigan Water sub-fund is included in the business-type activities matrix. The following matrix details revenues and expenses for business-type activities with the Village of Shorewood for the current fiscal year and a comparison to the prior fiscal year.

**Water & Sewer Fund - Revenues & Expenses
For the Fiscal Year Ending 3/31/2023**

	2023	2022	Variance	% Inc (Dec)

Change in Net Position	8,966,133	9,830,426	(864,293)	(8.79)%
NET POSITION, APRIL 1	60,535,689	50,705,262		
NET POSITION, MARCH 31	\$ 69,501,821	\$ 60,535,689		

Revenue

Water and sewer revenue increased in 2023 over 2022. Sanitary sewer rates increased in January, 2023, so the current year's revenue includes three months of the higher rate. Water rates increased in May, 2022 with the addition of \$1.00 per 1,000 gallons of consumption. The increased amount is set aside for future Lake Michigan Water expenses. The village has a 1.75% Home Rule sales tax. Tax revenue increased over the previous year. The revenue generated from this tax is utilized in the following ways:

- Funding for additional sanitary sewer capacity, purchased from the City of Joliet
- Funding for the village's transition in water source from deep and shallow wells to Lake Michigan, requiring capital infrastructure additions

Interest income increased due to favorable market conditions and available resources for placement.

Expenses

Operating expenses in the current year increased for both water and sewer.

- Water expense increases are attributed to normal wage and benefit increases, as well as some redistributions in employee wages to allocate additional time to the water and sewer fund. This is a reflection of actual work patterns.
- Sewer expenses increased which can be attributed to higher fees paid to the City of Joliet for sewer treatment. Depreciation and amortization expense changed only marginally over the prior year.
- Depreciation expenses decreased in the current year as several high cost assets were fully depreciated in the prior year.

Non-operating expenses decreased due to the breakdown of principal and interest expenses on the Village's debt service schedules.

Transfers out are those made from the Capital Improvement sub-fund to the Capital Projects fund. The Capital Projects Fund finances non water and sewer projects. The current year's transfer was \$2,050,000, which is an increase from the prior year's amount of \$1,050,000. This is consistent with the fluctuation and timing of one-time capital projects.

Capital Assets

The village's capital assets are summarized in the following table:

**Village of Shorewood Capital Assets (in Millions)
For the Fiscal Year Ending 3/31/2023**

	Governmental Activities		Business-Type Activities		Total	
	2023	2022	2023	2022	2023	2022
Non-Depreciable Assets						
Land	\$ 10.89	\$ 10.62	\$ 1.18	\$ 1.18	\$ 12.07	\$ 11.80
Land Right of Way	23.19	23.19	0.00	0.00	23.19	23.19
Construction in Progress	0.90	9.53	0.26	0.20	1.16	9.73
Capital Assets Being Depreciated						
Buildings & Improvements	34.14	18.77	0.00	0.00	34.14	18.77
Vehicles, Machinery & Equip	5.86	5.67	1.16	1.16	7.02	6.83
Sewage Treatment Rights	0.00	0.00	16.33	16.33	16.33	16.33
Infrastructure	117.60	117.60	48.45	48.16	166.05	165.76
Less Accumulated Depreciation	(79.61)	(75.72)	(31.15)	(29.62)	(110.76)	(105.34)
Net Capital Assets	\$112.98	\$109.67	\$ 36.23	\$ 37.41	\$ 149.21	\$ 147.07

The village's governmental capital assets grew by \$3.31M and business-type assets decreased by \$1.18M for a combined increase of \$2.14M after depreciation during fiscal 2023.

Increases in the governmental activities capital assets were due to the addition of the new Public Works facility as well as several new vehicle and land purchases.

The business-type assets decreases are attributed to the depreciation expense outpacing new purchases. Additional detail regarding Capital Assets may be seen in the Notes to the Financial Statements-Note 5, pages 33-34.

Long Term Debt

At the end of the fiscal year, the village had total debt (excluding compensated absences, net pension liabilities, the OPEB liability, asset retirement obligations, and unamortized bond premiums) outstanding of \$23.36M. This represents a decrease from the prior year of 1.24M, due to the the repayments occurring for existing debt. None of the village's current debt is funded directly from property taxes. Funding for outstanding debt is from utility tax revenue, home rule sales tax revenue, and water/sewer tap-on fees.

As a home rule government, under Illinois law, the village does not have any established debt limits.

The following tables summarize the village's debt structure (additional detail regarding long-term debt may be seen in the Notes to the Financial Statements-Note 7, pages 33-36).

Long Term Debt – Governmental Funds For the Fiscal Year Ending 3/31/2023

Type of Bond	2021 GO Bonds	
O/S Principal, 3/31/2022	\$	14,200,000
Interest Rate		2%-4%
Principal Payments		12/15/2022
Interest Payments		6/15/2022 12/15/2022
Maturity Date		12/15/2040
O/S Principal, 3/31/2023	\$	13,775,000
Pledged Revenue	Utility Taxes	
Proceeds Purpose	Construction of a unified Public Works facility	

Long Term Debt – Proprietary Fund For the Fiscal Year Ending 3/31/2023

Type of Bond	IEPA Loan	City of Joliet Agreement
O/S Principal, 3/31/2022	\$ 3,457,939	\$ 6,929,553
Interest Rate	1.995%	1.25%
Principal Payments	12/17/2022	4/1/2022 10/1/2022
Interest Payments	6/17/2022 12/17/2022	4/1/2022 10/1/2022
Maturity Date	12/17/2035	10/1/2032
O/S Principal, 3/31/2023	\$ 3,241,537	\$ 6,338,596
Pledged Revenue	Water & Sewer Tap on Fees	Home Rule Sales Tax
Proceeds Purpose	1.5M gallon aerial water tower	Additional sanitary sewer capacity

Economic Factors

The Village of Shorewood is located in Troy Township in Will County, 40 miles southwest of downtown Chicago. Shorewood continues to diversify its sales tax base by bringing major commercial development to the municipality. The intersection of Interstate 55 and Interstate 80 is approximately one mile south of Shorewood and two other highways, U.S. 52 and Illinois State Route 59, intersect in the village. Although Shorewood continues to be a primarily residential community, commercial growth has occurred predominately on State Route 59.

In 2015, voters approved a referendum granting the Village of Shorewood home rule status. This authority allowed the village to remove the 1% Non-Home Rule sales tax and replace it with a 1.75% Home Rule sales tax. The additional sales tax revenues will be used to finance construction and acquisition of Lake Michigan water for the Village of Shorewood.

Contacting the Village's Financial Management

This financial report is designed to provide a general overview of the village's finances, comply with finance-related laws and regulations and demonstrate the village's commitment to public accountability. If you have questions about this report or would like to request additional information, contact the village's Finance Director, One Towne Center Blvd., Shorewood, IL 60404 or access the village website at <http://shorewoodil.gov>

VILLAGE OF SHOREWOOD, ILLINOIS

NOTES TO FINANCIAL STATEMENTS

March 31, 2023

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Village of Shorewood, Illinois (the Village) have been prepared in conformity with accounting principles generally accepted in the United States of America (hereinafter referred to as generally accepted accounting principles (GAAP)) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Village's accounting policies are described below.

a. Reporting Entity

The Village, for financial statement reporting purposes, includes all of the funds relevant to the operations of the Village. The financial statements presented herein do not include agencies which have been formed under applicable state laws as separate and distinct units of government, apart from the Village.

The Village is a municipal corporation governed by an elected board. As required by GAAP, these financial statements present the Village (the primary government). Management has determined that there is one fiduciary component unit that is required to be included in the financial statements of the Village as pension trust fund.

Police Pension Employees Retirement System

The Village's police employees participate in Police Pension Employees Retirement System (PPERS). PPERS functions for the benefit of these employees and is governed by a five-member pension board. Two members appointed by the Village's Mayor, one elected by pension beneficiaries and two elected police employees constitute the pension board. The Village is obligated to fund all PPERS costs not funded by PPERS participants based upon actuarial valuations, which creates a financial burden on the Village. The State of Illinois is authorized to establish benefit levels and the Village is authorized to approve the actuarial assumptions used in the determination of contribution levels, which results in the PPERS being fiscally dependent upon the Village. PPERS is reported as a pension trust fund. PPERS does not issue a stand-alone financial report.

b. Fund Accounting

The Village uses funds to report on its financial position, changes in its financial position and cash flows. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

VILLAGE OF SHREWOOD, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

b. Fund Accounting (Continued)

A fund is a separate accounting entity with a self-balancing set of accounts. Funds are classified into the following categories: governmental, proprietary and fiduciary.

Governmental funds are used to account for all or most of the Village's general activities, including the collection and disbursement of restricted or committed monies (special revenue funds), the funds restricted, committed or assigned for the acquisition or construction of capital assets (capital projects funds), the funds restricted, committed or assigned for the servicing of long-term debt (debt service funds). The General Fund is used to account for all activities of the general government not accounted for in some other fund.

Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Goods or services from such activities can be provided to outside parties (enterprise funds).

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments. The Village utilizes a pension trust fund which is generally used to account for assets that the Village holds in a fiduciary capacity. A custodial fund, which the Village does not currently utilize or require, accounts for assets in the same capacity.

c. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Village. The effect of material interfund activity has been eliminated from these statements except that interfund services provided/used, if any, are not eliminated as part of the consolidation. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and (2) grants and standard revenues that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

VILLAGE OF SHOREWOOD, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c. Government-Wide and Fund Financial Statements (Continued)

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The Village reports the following major governmental funds:

The General Fund is the general operating fund of the Village. It is used to account for all financial resources except those accounted for in another fund.

The Capital Projects Fund is used to account for all activities related to public works expenses for the Village.

The Village reports the following major proprietary fund:

The Water and Sewer Fund is used to account for all activity necessary to provide water and sewer service to the residents of the Village including administration, operation, maintenance, financing and related debt service.

The Village reports a pension trust fund as a fiduciary component unit to account for the Police Pension Fund.

d. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues and additions are recorded when earned and expenses and deductions are recorded when a liability is incurred. Property taxes are recognized as revenues in the year for which they are levied (i.e., intended to finance). Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Operating revenues/expenses include all revenues/expenses directly related to providing enterprise fund services. Incidental revenues/expenses are reported as non-operating.

Governmental fund financial statements are accounted for using a current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available).

“Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period, generally within 60 days after year end.

VILLAGE OF SHREWOOD, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d. Measurement Focus, Basis of Accounting and Financial Statement Presentation
(Continued)

The Village recognizes property taxes when they become both measurable and available in the period intended to finance. A 90-day availability period is used for revenue recognition for all other governmental fund revenues. Expenditures are recorded when the related fund liability is incurred.

Those revenues susceptible to accrual are property taxes, franchise taxes, interest revenue and charges for services. Sales taxes collected and held by the state at year end on behalf of the Village are also recognized as revenue. Fines, permits and license revenues are not susceptible to accrual because generally they are not measurable until received in cash.

The Village reports deferred/unavailable revenue and unearned revenue on its financial statements. Deferred/unavailable revenues arise when a potential revenue does not meet both the measurable and available criteria for recognition in the current period, under the modified accrual basis of accounting. Unearned revenue arises when a revenue is measurable but not earned under the accrual basis of accounting. Deferred/unavailable revenues also arise when property taxes do not meet the period intended to finance criteria under the accrual basis of accounting.

Unearned revenues also arise when resources are received by the Village before it has a legal claim to them or prior to the provision of services, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the Village has a legal claim to the resources, the liability and deferred inflows of resource for unearned and unavailable/deferred revenue are removed from the financial statements and revenue is recognized.

e. Cash in Commingled Account

The Village uses a single money market account to process most of its operating transactions. This account is commingled in that several funds share this account and have rights to the extent of their respective equity in the aggregate balance. Accounting records are maintained to recognize each fund's share of the aggregate account balance. The General Fund, Debt Service Fund, Capital Projects Fund, Water and Sewer Fund, Asset Forfeiture Fund and Drug Prevention (DARE) Fund participate in the commingled account.

VILLAGE OF SHREWOOD, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

f. Cash and Cash Equivalents

For purposes of the statement of cash flows, the Village's proprietary fund considers all highly liquid investments, with a maturity of three months or less when purchased to be cash equivalents.

g. Investments

Investments with a maturity of less than one year when purchased, non-negotiable certificates of deposit and other nonparticipating investments are stated at cost or amortized cost. Investments with a maturity greater than one year when purchased and all investments of the pension trust fund are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

h. Restricted Assets

Certain cash and other assets in the Water and Sewer Fund are restricted for payment of debt service. These assets are reflected as restricted cash and other assets and restrictions of net position.

i. Interfund Receivables/Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds/advances to other funds" or "due to other funds/advances from other funds" on the financial statements.

j. Inventories

Inventories, if any, are valued at cost, which approximates market, using the first-in/first-out (FIFO) method. The costs of governmental fund inventories are recorded as expenditures and/or expenses when consumed rather than when purchased.

k. Prepaid Items/Expenses

Payments made to vendors for services that will benefit periods beyond the date of this report are recorded as prepaid items/expenses. Prepaid items/expenses are reported using the consumption method.

VILLAGE OF SHREWOOD, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

l. Capital Assets

Capital assets, which include property, plant, equipment, water and sewer system and infrastructure assets (e.g., roads, bridges and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements.

All purchased capital assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated capital assets are recorded at acquisition value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable.

Depreciation of buildings, equipment, water and sewer systems and vehicles is computed using the straight-line method over the following useful lives:

	<u>Threshold</u>	<u>Years</u>
Land	\$50,000	N/A
Buildings and building improvements	\$100,000	10-50
Water and sewer system	\$50,000-\$100,000	10-40
Vehicles, machinery and equipment	\$20,000-\$50,000	5-10
Infrastructure	\$50,000-\$100,000	10-40
Intangible assets	\$100,000	40

Construction and acquisition fees represent payments to the City of Joliet for rights to utilize their sewerage treatment plant and the costs associated with the connection.

m. Compensated Absences

Vested or accumulated vacation leave, including related Social Security and Medicare, that is owed to retirees or terminated employees is reported as an expenditure and a fund liability of the governmental fund that will pay it in the fund financial statements to the extent that employees have retired or terminated at year end but have not been paid. The remainder is reported in the governmental activities. Vested or accumulated vacation leave of proprietary funds and governmental activities is recorded as an expense and liability as the benefits accrue to employees. In accordance with the provisions of GASB Statement No. 16, no liability is recorded for nonvesting accumulating rights to receive sick pay benefits. However, an expenditure is reported and a liability is recognized for that portion of accumulating sick leave benefits that it is estimated will be taken as terminal leave at retirement.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

m. Compensated Absences (Continued)

All full-time employees may accumulate vacation days beginning on their start date up to two weeks per year. Accumulated vacation days are required to be taken within one year of their accrual and may be paid if the work schedule denies an employee reasonable opportunity to utilize accumulated vacation days. The maximum vacation carryover is no more than two weeks.

For full-time employees hired prior to January 1, 1994, a maximum of 50 days sick leave can be accumulated for the subsequent use or for payment at retirement of 100% of the accumulated value based on current salary. Employees must have at least 20 years continuous full-time service to be eligible under the program.

For full-time employees hired between January 1, 1994 and December 31, 1998, a maximum of 25 days sick leave can be accumulated for the subsequent use or for payment at retirement of 100% of the accumulated value based on the current salary. Employees must have at least 20 years continuous full-time service to be eligible under the program.

n. Long-Term Obligations

In the government-wide financial statements and proprietary funds in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund financial statements. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method.

Bonds payable are reported net of the applicable bond premium or discount. The unamortized loss on refunding is reported as a deferred outflow of resources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenses.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

VILLAGE OF SHREWOOD, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

o. Fund Balances/Net Position

In the fund financial statements, governmental funds report nonspendable fund balance for amounts that are either not in spendable form or are legally or contractually required to be maintained intact. Restrictions of fund balance are reported for amounts constrained by legal restrictions from outside parties for use for a specific purpose, or externally imposed by outside entities or from enabling legislation adopted by the Village. Committed fund balance is constrained by formal actions of the Village's Board of Trustees, which is considered the Village's highest level of decision-making authority.

Formal actions include ordinances approved by the Board of Trustees. Assigned fund balance represents amounts constrained by the Village's intent to use them for a specific purpose. The authority to assign fund balance has been delegated to the Village Administrator and/or Finance Director as specified by the Village's fund balance reserve policy. Any residual fund balance in the General Fund, including fund balance targets and any deficit fund balance of any other governmental fund is reported as unassigned.

The Village has established a fund balance reserve policy for its General Fund. The policy requires the Village to maintain an assigned fund balance in the General Fund equivalent to three months of operating expenditures.

The Village's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending the Village considers committed funds to be expended first followed by assigned funds and then unassigned funds.

In the government-wide financial statements, restricted net position is legally restricted by outside parties for a specific purpose. Net investment in capital assets represents the book value of capital assets, less any outstanding long-term debt issued to construct or acquire the capital asset. Net position of the Village has not been restricted by enabling legislation.

p. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources.

VILLAGE OF SHREWOOD, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

p. Deferred Outflows/Inflows of Resources (Continued)

This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

q. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, and deferred inflows of resources, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

2. DEPOSITS AND INVESTMENTS

The Village and pension fund categorize fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

Illinois Compiled Statutes (ILCS) and the Village's investment policy authorize the Village to make deposits/invest in insured commercial banks, insured savings and loan institutions, obligations of the U.S. Treasury and U.S. agencies, short-term commercial paper rated with the highest classification by at least one standard rating service, The Illinois Funds and the Illinois Metropolitan Investment Fund (IMET).

The Illinois Public Treasurers' Investment Pool, known as The Illinois Funds, operates as a qualified external investment pool in accordance with the criteria established in GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*, and thus, reports all investments at amortized cost rather than fair value. The investment in The Illinois Funds by participants is also reported at amortized cost. The Illinois Funds does not have any limitations or restrictions on participant withdrawals. The Illinois Treasurer's Office issues a separate financial report for The Illinois Funds which may be obtained by contacting the Administrative Office at Illinois Business Center, 400 West Monroe Street, Suite 401, Springfield, Illinois 62704.

2. DEPOSITS AND INVESTMENTS (Continued)

IMET is a local government investment pool. Created in 1996 as a not-for-profit trust formed under the Intergovernmental Cooperation Act and the Illinois Municipal Code. IMET was formed to provide Illinois government agencies with safe, liquid, attractive alternatives for investing and is managed by a Board of Trustees elected from the participating members. IMET offers participants two separate vehicles to meet their investment needs. The IMET Core Fund is designed for public funds that may be invested for longer than one year. The Core Fund carries the highest rating available (AAAf/bf) from Moody's for such funds. Member withdrawals can be made from the core fund with a five day notice. The IMET Convenience Fund (CVF) is designed to accommodate funds requiring high liquidity, including short term cash management programs and temporary investment of bond proceeds. It is comprised of collateralized and FHLB LoC backed bank deposits, FDIC insured certificates of deposit and U.S. Government securities. Member withdrawals are generally on the same day as requested. Investments in IMET are valued at IMET's share price, which is the price the investment could be sold.

It is the policy of the Village to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the Village and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objectives of the policy are safety (preservation of capital and protection of investment principal in the name of the Village), diversification, liquidity and yield.

a. Village Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of a bank's failure, the Village's deposits may not be returned to it. The Village's investment policy requires the pledging of collateral of 110% of all bank balances in excess of federal depository insurance with the collateral held by the Village, or in safekeeping (held by a third party or escrow agent of the pledging institution in the name of the Village) and evidenced by a safekeeping agreement.

b. Village Investments

In accordance with its investment policy, the Village limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for operating funds and maximizing yields for funds not needed to make current operating expenditures/expenses. The Village's investment policy does not specify maximum maturity lengths of investments.

2. DEPOSITS AND INVESTMENTS (Continued)

b. Village Investments (Continued)

The Village limits its exposure to credit risk, the risk that the issuer of a debt security will not pay its par value upon maturity, by primarily investing in IMET, The Illinois Funds, money market mutual funds and U.S. agency securities even though the investment policies allow other investments. For the Village's investments, IMET and The Illinois Funds are rated AAA.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Village will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the Village's investment policy requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment (DVP) basis with the underlying investments held in a custodial account with the trust department of an approved financial institution.

To limit its exposure, the Village invests in IMET and The Illinois Funds which are not subject to custodial credit risk.

Concentration of credit risk - The Village's investment policy requires diversification of the portfolio and specifies diversification targets or limits as follows:

- Monies deposited at a financial institution shall not exceed 75% of the capital stock and surplus of that institution.
- Commercial paper and bankers' acceptances shall not exceed 25% of the Village's investment portfolio.
- Investment in the public treasurer's investment pool shall not exceed 75% of the Village's investment portfolio.
- Certificates of deposit with savings and loan associations shall not exceed 5% of the portfolio.
- The combination of certificates of deposit, bankers' acceptances and commercial paper shall not exceed 33% of the investment portfolio with any one financial institution.
- State and local government securities shall not exceed 25% of the investment portfolio.
- Commercial paper shall not exceed 10% of the investment portfolio with any one corporate entity.

VILLAGE OF SHOREWOOD, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

2. DEPOSITS AND INVESTMENTS (Continued)

b. Village Investments (Continued)

The following table presents the investments and maturities of the Village’s debt securities as of March 31, 2023:

Investment Type	Fair Value	Investment Maturities (in Years)			
		Less than 1	1-5	6-10	Greater than 10
IMET	\$ 3,823,214	\$ -	\$ 3,823,214	\$ -	\$ -
TOTAL	\$ 3,823,214	\$ -	\$ 3,823,214	\$ -	\$ -

3. PROPERTY TAXES

Property taxes for the 2021 levy year attach as an enforceable lien on January 1, 2021, on property value assessed as of the same date. Taxes are levied by December 31 of the same year by passage of a Tax Levy Ordinance.

Tax bills are prepared by the County and issued on or about May 1, 2022 and August 1, 2022, and are payable in two installments, on or about June 1, 2022 and September 1, 2022. The County collects such taxes and remits them periodically. The allowance for uncollectible taxes has been stated at 1% of the tax levy, to reflect actual collection experience. Because the 2022 levy is intended to finance the fiscal year ended March 31, 2024, it has been offset by unavailable/deferred revenue at March 31, 2023. The 2023 tax levy, which attached as an enforceable lien on property as of January 1, 2023, has not been recorded as a receivable as of March 31, 2023 as the tax has not yet been levied by the Village and will not be levied until December 2023 and, therefore, the levy is not measurable at March 31, 2023.

VILLAGE OF SHOREWOOD, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

6. RISK MANAGEMENT

The Village is exposed to various risks of loss related to torts; theft of, damage and destruction of assets; errors and omissions; injuries to employees; and net income losses. To insure against the losses, the Village participates in the Southwest Agency for Risk Management (SWARM), a public entity risk pool with transfers of risk. The Village pays an annual premium to SWARM for property, public liability, automobile liability, crime and workers' compensation coverage. The Village purchases employee health insurance through Government Insurance Network (GIN). There has been no significant reduction in coverage the prior year. Settlement amounts have not exceeded insurance coverage for the current or three prior years.

7. LONG-TERM DEBT

a. Changes in Long-Term Liabilities

During the year ended March 31, 2023, the following changes occurred in long-term liabilities:

	Balances April 1	Additions	Reductions	Balances March 31	Current Portion
GOVERNMENTAL ACTIVITIES					
General obligation bonds	\$ 14,200,000	\$ -	\$ 425,000	\$ 13,775,000	\$ 575,000

b. General Obligation Bonds

The Village issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for only governmental activities. These bonds, therefore, are reported in the proprietary funds if they are expected to be repaid from proprietary revenues. In addition, general obligation bonds have been issued to refund general obligation bonds.

The Village issued the Series 2021 General Obligation Bonds to finance various capital improvements throughout the Village and to pay the costs of issuing the bonds. Repayment of the debt is funded by taxes specifically designated in the Debt Service Fund.

General obligation bonds are direct obligations and pledge the full faith and credit of the Village. General obligation bonds currently outstanding are as follows:

	Fund Debt Retired By	Balances April 1	Additions	Reductions	Balances March 31	Current Portion
\$14,200,000 General Obligation Bonds, Series 2021, dated August 11, 2021, due in annual installments plus interest at 2% to 4% through December 15, 2040.	Debt Service	\$ 14,200,000	\$ -	\$ 425,000	\$ 13,775,000	\$ 575,000

VILLAGE OF SHOREWOOD, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

7. LONG-TERM DEBT (Continued)

d. Joliet/Shorewood Wastewater Agreement

The Village has recognized a liability for construction and acquisition fee payments to the City of Joliet for rights to utilize their sewerage treatment plant and the cost to connect to it.

e. Asset Retirement Obligation

The Village has recognized an asset retirement obligation (ARO) and related deferred outflow of resources in connection with its obligation to seal and abandon various water wells at the end of their estimated useful lives in accordance with federal, state and/or local requirements. The ARO was measured using actual historical costs for similar abandonments, adjusted for inflation through the end of the year. The estimated remaining useful lives of the water wells is 50 years.

8. INDIVIDUAL FUND DISCLOSURES

a. Interfund Transfers

Individual fund transfers for the year ended March 31, 2023 are:

	Transfers In	Transfers Out
	<hr/>	<hr/>
Capital Projects Fund	\$ 2,050,000	\$ 1,073,988
Water & Sewer Fund	3,612,290	2,050,000
General Fund	-	4,553,359
Debt Service Fund (Nonmajor Governmental)	941,069	-
Motor Fuel Tax Fund (Nonmajor Governmental)	1,073,988	-
	<hr/>	<hr/>
TOTAL ALL FUNDS	<u>\$ 7,677,347</u>	<u>\$ 7,677,347</u>

The purpose of significant transfers is as follows:

- \$2,050,000 transferred from the Water & Sewer Fund to the Capital Projects Fund was for infrastructure projects. This transfer will not be repaid.
- \$941,069 transferred from the General Fund to the Debt Service Fund (Nonmajor Governmental) for debt payments. This transfer will not be repaid.
- \$1,073,988 transferred from the Capital Projects Fund to the Motor Fuel Tax Fund for street and related capital projects. This transfer will not be repaid.

a. Interfund Transfers (Continued)

- \$3,612,290 transferred from the General Fund to the Water & Sewer Fund for water operations and expenses. This transfer will not be repaid.

9. EMPLOYEE RETIREMENT SYSTEMS

The Village contributes to three defined benefit pension plans, the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer public employee retirement system, the Sheriff's Law Enforcement Personnel Fund (SLEP), which is administered by IMRF and is also an agent multiple-employer public employee retirement system; and the Police Pension Plan, which is a single-employer pension plan. The benefits, benefit levels, employee contributions and employer contributions for both plans are governed by ILCS and can only be amended by the Illinois General Assembly. The Police Pension Plan does not issue a separate report. However, IMRF does issue a publicly available report that includes financial statements and supplementary information for the plan as a whole, but not for individual employers. That report can be obtained from IMRF, 2211 York Road, Suite 500, Oak Brook, Illinois 60523 or at www.imrf.org.

The table below is a summary for all pension plans as of and for the year ended December 31, 2022:

	IMRF	IMRF SLEP	Police Pension	Total
Net pension liability	\$ 3,637,625	\$ 40,097	\$ 5,740,829	\$ 9,418,551
Deferred outflows of resources	1,939,498	53,758	2,635,710	4,628,966
Deferred inflows of resources	197,872	-	440,288	638,160
Pension expense (income)	734,962	(40)	1,161,231	1,896,153

a. Plan Descriptions

Illinois Municipal Retirement Fund

Plan Administration

All employees (other than those covered by IMRF-SLEP or the Police Pension Plan) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members.

The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

VILLAGE OF SHREWOOD, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

9. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

Plan Membership

At December 31, 2022 (the measurement date), IMRF membership consisted of:

Inactive employees or their beneficiaries currently receiving benefits	29
Inactive employees entitled to but not yet receiving benefits	23
Active employees	<u>45</u>
 TOTAL	 <u><u>97</u></u>

Benefits Provided

All employees (other than those covered by the Police Pension Plan) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with ten years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

IMRF also provides death and disability benefits. These benefit provisions and all are established by state statute.

VILLAGE OF SHOREWOOD, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

9. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

Illinois Municipal Retirement Fund (Continued)

Contributions

Participating members are required to contribute 4.50% of their annual salary to IMRF. The Village is required to contribute the remaining amounts necessary to fund IMRF as specified by statute. The required employer contribution for the fiscal year ended March 31, 2023 was 12.08% of covered payroll.

Actuarial Assumptions

The Village's net pension liability was measured as of December 31, 2022 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of the same date using the following actuarial methods and assumptions.

Actuarial valuation date	December 31, 2022
Actuarial cost method	Entry-age normal
Assumptions	
Inflation	2.25%
Salary increases	2.85% to 13.75%
Interest rate	7.25%
Cost of living adjustments	2.25%
Asset valuation method	Fair value

For nondisabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables and future mortality improvements projected using scale MP-2020.

a. Plan Descriptions (Continued)

Illinois Municipal Retirement Fund (Continued)

Discount Rate

The discount rate used to measure the total pension liability at December 31, 2022, was 7.25%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the Village contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the IMRF's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

Changes in the Net Pension Liability

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the year ended March 31, 2023, the Village recognized pension expense of \$734,962.

At March 31, 2023, the Village reported deferred outflows of resources and deferred inflows of resources related to IMRF from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 745,888	\$ 62,487
Changes in assumption	68,821	135,385
Net difference between projected and actual earnings on pension plan investments	1,003,593	-
Contributions subsequent to measurement date	121,196	-
TOTAL	\$ 1,939,498	\$ 197,872

Amounts reported as deferred outflows of resources and deferred inflows of resources related to IMRF will be recognized in pension expense as follows:

\$121,196 reported as deferred outflows of resources related to pensions resulting from village contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending March 31, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to IMRF will be recognized in pension expense as follows:

<u>Year Ending March 31,</u>	
2024	\$ 229,381
2025	339,919
2026	426,777
2027	618,711
2028	5,642

Discount Rate Sensitivity

The following is a sensitive analysis of the net pension liability to changes in the discount rate. The table below presents the net pension liability of the Village calculated using the discount rate of 7.25% as well as what the Village's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.25%) or 1 percentage point higher (8.25%) than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Net pension liability	\$ 5,850,765	\$ 3,637,625	\$ 1,902,198

Sheriff's Law Enforcement Personnel

Benefits Provided

SLEP members having accumulated at least 20 years of SLEP service and terminating IMRF participation or after January 1, 1988, may elect to retire at or after age 50 with no early retirement discount penalty. SLEP members meeting these two qualifications are entitled to an annual retirement benefit payable monthly for life, in an amount equal to 2 1/2% of their final rate of earnings for each year of credited service up to 20 years, 2% of their final earnings rate for the next ten years of credited service and 1% for each year thereafter. For SLEP members retiring with less than 20 years of SLEP service, the regular IMRF pension formula applies. SLEP also provides death and disability benefits. These benefit provisions and all other requirements are established by ILCS.

Contributions

Participating members are required to contribute 7.50% of their annual salary to SLEP. The Village is required to contribute the remaining amounts necessary to fund SLEP as specified by statute. The required employer contribution for the fiscal year ended March 31, 2023, was 9.48% of covered payroll.

Discount Rate Sensitivity

The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the net pension liability of the Village calculated using the discount rate of 7.25% as well as what the Village's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.25%) or 1 percentage point higher (8.25%) than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Net pension liability	\$ 45,498	\$ 40,097	\$ 35,157

Police Pension Plan

Plan Administration

Police sworn personnel are covered by the Police Pension Plan. Although this is a single-employer pension plan, the defined benefits and employee and employer contribution levels are governed by Illinois Compiled Statutes (40 ILCS 5/3-1) and may be amended only by the Illinois legislature. The Village accounts for the plan as a pension trust fund.

The plan is governed by a five-member Board of Trustees. Two members of the Board of Trustees are appointed by the Village President, one member is elected by pension beneficiaries and two members are elected by active sworn police employees.

Plan Membership

At March 31, 2023, membership consisted of:

Inactive plan members currently receiving benefits	9
Inactive plan members entitled to but not yet receiving benefits	1
Active plan members	<u>31</u>
TOTAL	<u>41</u>

9. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

Police Pension Plan (Continued)

Benefits Provided

The Police Pension Plan provides retirement benefits as well as death and disability benefits. Tier 1 employees (those hired prior to January 1, 2011) attaining the age of 50 or older with 20 or more years of creditable service are entitled to receive an annual retirement benefit equal to one-half of the salary attached to the rank held on the last day of service, or for one year prior to the last day, whichever is greater. The annual benefit shall be increased by 2.50% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75% of such salary. Employees with at least eight years but less than 20 years of credited service may retire at or after age 60 and receive 2.50% of salary for each year of service. The monthly benefit shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3% of the original pension and 3% compounded annually thereafter.

Tier 2 employees (those hired on or after January 1, 2011) attaining the age of 55 or older with ten or more years of creditable service are entitled to receive an annual retirement benefit equal to the greater of the average monthly salary obtaining by devising the total salary during the 48 consecutive months of service within the last of 60 months in which the total salary was the highest by the number of months in that period; or the average monthly salary obtained by dividing the total salary of the police officer during the 96 consecutive months of service within the last 120 months of service in which the total salary was the highest by the number of months of service in that period. Police officers' salary for pension purposes is capped at \$106,800, plus the lesser of ½ of the annual change in the Consumer Price Index or 3% compounded. The annual benefit shall be increased by 2.50% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75% of such salary. Employees with at least ten years may retire at or after age 50 and receive a reduced benefit (i.e., ½% for each month under 55). The monthly benefit of a Tier 2 police officer shall be increased annually at age 60 on the January 1st after the police officer retires, or the first anniversary of the pension starting date, whichever is later. Noncompounding increases occur annually, each January thereafter. The increase is the lesser of 3% or ½ of the change in the Consumer Price Index for the proceeding calendar year.

9. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

Police Pension Plan (Continued)

Contributions

Employees are required by ILCS to contribute 9.91% of their base salary to the Police Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The Village is required to contribute the remaining amounts necessary to finance the plan and the administrative costs as actuarially determined by an enrolled actuary. Effective January 1, 2011, the Village has until the year 2040 to fund 90% of the past service cost for the Police Pension Plan. The Village has adopted a policy to fund 100% of the past service costs by 2040 using the entry-age normal actuarial cost method. For the year ended March 31, 2023, the Village's contribution was 25.33% of covered payroll.

Illinois Police Officers' Pension Investment Fund

The Illinois Police Officers' Pension Investment Fund (IPOPIF) is an investment trust fund responsible for the consolidation and fiduciary management of the pension assets of Illinois suburban and downstate police pension funds. IPOPIF was created by Public Act 101-0610 and codified within the Illinois Pension Code, becoming effective January 1, 2020, to streamline investments and eliminate unnecessary and redundant administrative costs, thereby ensuring assets are available to fund pension benefits for the beneficiaries of the participating pension funds as defined in 40 ILCS 5/22B-105. Participation in IPOPIF by Illinois suburban and downstate police pension funds is mandatory.

Deposits with Financial Institutions

The plan retains all of its available cash with one financial institution. Available cash is determined to be that amount which is required for the current expenditures of the plan. The excess of available cash is required to be transferred to IPOPIF for purposes of the long-term investment for the plan.

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the plan's deposits may not be returned to it. The plan's investment policy requires pledging of collateral for all bank balances held in the Plan's name in excess of federal depository insurance, at amounts ranging from 110% to 115% of the fair market value of the funds secured, with the collateral held by an independent third party or the Federal Reserve Bank.

9. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

Police Pension Plan (Continued)

Investments

Investments of the plan are combined in a commingled external investment pool and held by IPOPIF. A schedule of investment expenses is included in IPOPIF's annual comprehensive financial report. For additional information on IPOPIF's investments, please refer to their annual comprehensive financial report as of June 30, 2022. A copy of that report can be obtained from IPOPIF at 456 Fulton Street, Suite 402, Peoria, IL 61602 or at www.ipopif.org.

Fair Value Measurement

The plan categorizes fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. The Plan held no investments subject to fair value measurement at March 31, 2023.

Net Asset Value

The Net Asset Value (NAV) of the plan's pooled investment in IPOPIF was \$20,032,003 at March 31, 2023. Investments in IPOPIF are valued at IPOPIF's share price, which is the price the investment could be sold. There are no unfunded commitments at March 31, 2023. The plan may redeem shares with a seven calendar day notice. IPOPIF may, at its sole discretion and based on circumstances, process redemption requests with fewer than a seven calendar day notice. Regular redemptions of the same amount on a particular day of the month may be arranged with IPOPIF.

Investment Rate of Return

For the year ended March 31, 2023, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was (4.86%). The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

NOTES TO FINANCIAL STATEMENTS (Continued)

9. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

Police Pension Plan (Continued)

Discount Rate

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the Village contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

Changes in the Net Pension Liability

	(a) Total Pension Liability	(b) Plan Fiduciary Net Position	(a) - (b) Net Pension Liability
BALANCES AT APRIL 1, 2022	\$ 24,269,943	\$ 20,927,539	\$ 3,342,404

a. Plan Descriptions (Continued)

Police Pension Plan (Continued)

Changes in the Net Pension Liability (Continued)

The funded status of the plan as of the most recent measurement date is 77.86%

Actuarial Assumptions

The total pension liability above was determined by an actuarial valuation performed as of March 31, 2023 using the following actuarial methods and assumptions.

Actuarial valuation date	March 31, 2023
Actuarial cost method	Entry-age normal
Assumptions	
Inflation	2.50%
Salary increases	Service-based
Interest rate	6.75%
Cost of living adjustments	3.00% (Tier 1) 1.25% (Tier 2)
Asset valuation method	Fair value

For active lives, mortality rates were based on PubS-2010 Employee mortality, projected five years past the valuation date with Scale MP-2021. 10% of active deaths are assumed to be in the line of duty. For inactive lives, rates were based on PubS-2010 Healthy Retiree mortality, projected five years past the valuation date with Scale MP-2021. For beneficiaries, rates were based on PubS-2010 Survivor mortality, projected five years past the valuation date with Scale MP-2021. For disabled lives, rates were based on PubS-2010 Disabled mortality, projected five years past the valuation date with Scale MP-2021.

Police Pension Plan (Continued)

Discount Rate Sensitivity

The following is a sensitive analysis of the net pension liability to changes in the discount rate. The table below presents the net pension liability of the Village calculated using the discount rate of 6.75% as well as what the Village's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (5.75%) or 1 percentage point higher (7.75%) than the current rate:

	1% Decrease (5.75%)	Current Discount Rate (6.75%)	1% Increase (7.75%)
Net pension liability	\$ 10,131,809	\$ 5,740,829	\$ 2,219,055

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the year ended March 31, 2023, the Village recognized pension expense of \$1,161,231. At March 31, 2023, the Village reported deferred outflows of resources and deferred inflows of resources related to the police pension from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 542,157	\$ 297,616
Changes in assumptions	505,569	142,672
Net difference between projected and actual earnings on pension plan investments	1,587,984	-
TOTAL	\$ 2,635,710	\$ 440,288

Changes in the net pension liability related to the difference in actual and expected experience, or changes in assumptions regarding future events, are recognized in pension expense over the expected remaining service life of all employees (active and retired) in the plan. Differences in projected and actual earnings over the measurement period are recognized over a five-year period.

2024	\$ 419,061
2025	143,072
2026	770,471
2027	584,198
2028	120,852
Thereafter	<u>157,768</u>
 TOTAL	 <u>\$ 2,195,422</u>

10. OTHER POSTEMPLOYMENT BENEFITS

a. Plan Description

In addition to providing the pension benefits described, the Village provides postemployment health care and life insurance benefits (OPEB) for retired employees through a single-employer defined benefit plan. The benefits, benefit levels, employee contributions and employer contributions are governed by the Village and can be amended by the Village through its personnel manual and union contracts. The plan is not accounted for as a trust fund, as an irrevocable trust has not been established to account for the plan. The plan does not issue a separate report.

VILLAGE OF SHREWOOD, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

10. OTHER POSTEMPLOYMENT BENEFITS (Continued)

b. Benefits Provided

A retired employee and his or her spouse are eligible to continue health insurance identical to active employees if they meet the eligibility for retirements under the applicable plan. Retirees participating in the group insurance plans offered by the Village are required to contribute 100% of the active premium rate for them and their covered dependents. For certain disabled public safety employees who qualify under the Public Safety Employee Benefits Act (PSEBA), the Village is required to pay 100% of the cost of basic health insurance for retirees and their dependents for their lifetime. The Village negotiates the contribution percentages between the Village and employees through the union contracts and personnel policy.

All health care benefits are provided through the Village’s commercial health plan. The benefit levels are the same as those afforded to active employees. Benefits include general inpatient and outpatient medical services; mental, nervous and substance abuse care; vision care; dental care; and prescriptions. Upon a retiree reaching age 65 years of age, Medicare becomes the primary insurer and the Village’s plan becomes secondary.

c. Membership

At March 31, 2022 (most recent data available), membership consisted of:

Retirees and beneficiaries currently receiving benefits	2
Terminated employees entitled to benefits but not yet receiving them	-
Active employees	<u>53</u>
 TOTAL	 <u>55</u>
 Participating employers	 <u><u>1</u></u>

d. Total OPEB Liability

The Village’s total OPEB liability of \$405,200 was measured as of March 31, 2023 and was determined by an actuarial valuation as of March 31, 2022.

VILLAGE OF SHREWOOD, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

10. OTHER POSTEMPLOYMENT BENEFITS (Continued)

e. Actuarial Assumptions and Other Inputs

The total OPEB liability at March 31, 2023 as determined by an actuarial valuation as of March 31, 2022, using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified. The total OPEB liability was rolled forward by the actuary using updating procedures to March 31, 2023, including updating the discount rate at March 31, 2023 as noted below.

Actuarial cost method	Entry-age normal
Actuarial value of assets	Not applicable
Inflation	2.50%
Salary increases	2.50%
Discount rate	4.05%
Healthcare cost trend rates	7.25% Initial 4.00% Ultimate

The discount rate was based on The Bond Buyer 20-Bond GO Index, which is based on an average of certain general obligation municipal bonds maturing in 20 years and having an average rating equivalent of Moody's Aa2 and Standard & Poor's AA.

f. Changes in the Total OPEB Liability

	<u>Total OPEB Liability</u>
BALANCES AT APRIL 1, 2022	<u>\$ 424,208</u>
Changes for the period	
Service cost	14,473
Interest	14,897
Changes in assumptions	(31,939)
Benefit payments	<u>(16,439)</u>
Net changes	<u>(19,008)</u>
BALANCES AT MARCH 31, 2023	<u><u>\$ 405,200</u></u>

VILLAGE OF SHREWOOD, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

10. OTHER POSTEMPLOYMENT BENEFITS (Continued)

f. Changes in the Total OPEB Liability (Continued)

Changes of assumptions reflect a change in the discount rate to 4.05%.

g. Rate Sensitivity

The following is a sensitivity analysis of the total OPEB liability to changes in the discount rate and the healthcare cost trend rate. The table below presents the total OPEB liability of the Village calculated using the discount rate of 4.05% as well as what the Village total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (3.05%) or 1 percentage point higher (5.05%) than the current rate:

	1% Decrease (3.05%)	Current Discount Rate (4.05%)	1% Increase (5.05%)
Total OPEB liability	\$ 461,382	\$ 405,200	\$ 357,946

The table below presents the total OPEB liability of the Village calculated using the healthcare rate of 4.00% to 7.25% as well as what the Village's total OPEB liability would be if it were calculated using a healthcare rate that is 1 percentage point lower (3.00% to 6.25%) or 1 percentage point higher (5.00% to 8.25%) than the current rate:

	1% Decrease (3.00% to 6.25%)	Current Healthcare Rate (4.00% to 7.25%)	1% Increase (5.00% to 8.25%)
Total OPEB liability	\$ 351,331	\$ 405,200	\$ 470,231

h. OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended March 31, 2023, the Village recognized OPEB expense (income) of \$(994). Under GASB Statement No. 75, plans that qualify for the Alternative Measurement Method, changes to the OPEB liability are not permitted to be included in deferred outflows of resources or deferred inflows of resources related to OPEB. These changes will be immediately recognized through OPEB expense.

VILLAGE OF SHREWOOD, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

11. EMPLOYEE BENEFIT PLANS

The Village provides a 457 plan, a single employer defined contribution plan, to the Village Administrator, which is a single employer defined contribution plan. Due to his time as a Police Chief and participation in an Article III Pension Plan and subsequent re-employment with the Village, the Village Administrator is ineligible to participate in IMRF. Therefore, the Village will contribute an amount equal to that of the IMRF employer contribution percentage to a 457 plan. The Administrator may elect to contribute additional earnings to the plan, up to the IRS annual limit. During the fiscal year ended March 31, 2023, the contribution made by the Village was \$19,421.

12. LESSOR DISCLOSURES

In accordance with GASB Statement No. 87, *Leases*, the Village's lessor activity is as follows:

The Village entered into two lease arrangements on October 25, 2005 and August 28, 2018, to lease cell tower property. For the first lease arrangement, payments ranging from \$2,119 to \$2,816 are due to the Village in monthly installments, through October 1, 2034. For the second lease arrangement, payments ranging from \$2,459 to \$5,302 are due to the Village in monthly installments, through February 1, 2049. Both lease arrangements are noncancelable. During the fiscal year, the Village collected \$57,661 under both arrangements and recognized a \$53,719 reduction in the related deferred inflow of resource. As of March 31, 2023, the remaining lease receivable and offsetting deferred inflow of resource for these arrangements is \$1,015,837 and \$983,086, respectively, and these amounts are recorded in the Village's General Fund.

The Village entered into a lease arrangement on May 26, 2022, to lease building space. Payments of \$12,000 are due to the Village in annual installments, through May 26, 2026. The lease arrangement is noncancelable. During the fiscal year, the Village collected \$12,000 and recognized a \$11,115 reduction in the related deferred inflow of resource. As of March 31, 2023, the remaining lease receivable and offsetting deferred inflow of resource for this arrangement is \$45,026 and \$44,460, respectively, and these amounts are recorded in the Village's General Fund.

13. CHANGE IN ACCOUNTING PRINCIPLE

For the fiscal year ended March 31, 2023, the Village implemented GASB Statement No. 87, *Leases*. With the implementation, the Village recorded the beginning net position/fund balance of lease receivable and lease deferred inflows of resources.

VILLAGE OF SHOREWOOD, ILLINOIS

The information presented was determined as part of the actuarial valuations as of January 1 of the prior calendar year. Additional information as of the latest actuarial valuation presented is as follows: the actuarial cost method was entry-age normal; the amortization method was level percent of pay, closed and the amortization period was 21 years; the asset valuation method was five-year smoothed market; and the significant actuarial assumptions were an investment rate of return at 7.25% annually, projected salary increases assumption of 2.85% to 13.75% compounded annually and postretirement benefit increases of 2.25% compounded annually.

Ultimately, this schedule should present information for the last ten years. However, until ten years of information can be compiled, information will be presented for as many years as is available.

(See independent auditor's report.)

VILLAGE OF SHOREWOOD, ILLINOIS

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

March 31, 2023

BUDGETS AND APPROPRIATIONS

The Village uses a budget for all funds, except for the fiduciary funds, Drug Prevention and Asset Forfeiture Funds, which includes estimated revenues and expenditures by line item, as a management tool. An annual appropriation is adopted by the Village for all funds except for the fiduciary fund, Drug Prevention and Asset Forfeiture Funds, which constitutes the legal spending limit. Unused appropriations lapse at the end of the year. The annual appropriated budget is legally enacted and provides for a legal level of control at the fund level. No supplemental appropriations were made during the year.

The amounts shown in the financial statements in the budget columns are the authorized amounts (as revised during the year as provided by statutes). The budgets are adopted on a basis consistent with generally accepted accounting principles.

N/A - Information not available

Note: Property in the Village is reassessed each year. Property is assessed at 33% of actual value. Taxes levied are collected in the subsequent fiscal year; therefore, 2022 tax collections are not available until fiscal 2023-24. This schedule has been revised to show only the taxes levied by the Village. Troy Township also levies a tax for Road and Bridge; a portion of which they subsequently remit to the Village. Supplemental collections are collections for back taxes.

VILLAGE OF SHOREWOOD, ILLINOIS

LEGAL DEBT MARGIN INFORMATION

March 31, 2023

The Village is a home rule municipality.

Chapter 65, Section 5/8-5-1 of the Illinois Compiled Statutes governs computation of the legal debt margin.

"The General Assembly may limit by law the amount and require referendum approval of debt to be incurred by home rule municipalities, payable from ad valorem property tax receipts, only in excess of the following percentages of the assessed value of its taxable property...(2) if its population is more than 25,000 and less than 50,000 an aggregate of one per cent:...indebtedness which is outstanding on the effective date (July 1, 1971) of this constitution or which is thereafter approved by referendum...shall not be included in the foregoing percentage amounts."

To date the General Assembly has set no limits for home rule municipalities.

Note: The Village became home rule during the fiscal year ended March 31, 2016.
